framework

BOSTON (OCTOBER 7, 2020) – Loomis, Sayles & Company, an affiliate of Natixis Investment Managers, celebrates the 10-year anniversary of Aziz V. Hamzaogullari, CFA, at Loomis Sayles. Aziz is the founder, chief investment officer and portfolio manager of the Loomis Sayles Growth Equity Strategies (GES) team.

Aziz is the portfolio manager of the Loomis Sayles Large Cap Growth, All Cap Growth and Global Growth long-only strategies, as well as an equity long-short fund. Additionally, he manages the Loomis Sayles Growth and Global Growth mutual funds and products outside the US. Aziz is also an executive vice president and a member of the firm’s Board of Directors. He joined Loomis Sayles in 2010 from Evergreen Investments, where as a managing director and senior portfolio manager, he led the large cap and all cap growth strategies since 2006. He was head of Evergreen’s Berkeley Street Growth Equity team and founded that team’s research and investment processes.

Aziz brought this differentiated approach to equity investing with him when he joined Loomis Sayles to manage the flagship Loomis Sayles Growth Fund. The fund (share class A) has earned an annualized return of 17.36% over the past 10 years under his management and has grown from less than \$100 million to \$13.8 billion AUM during this time.

Over the past decade, the [GES team](#) has expanded its product platform while ensuring that its strategies are underpinned by a single investment philosophy and supported by the team's seven-step research framework. Since Aziz joined Loomis Sayles in 2010, the team's assets have grown from \$1.9 billion to \$81 billion.*

Large Cap Growth Strategy

\$73.6 billion AUM

Since inception in 2006, the [Large Cap Growth Composite](#) has generated an annualized net return of 14.36%, outperforming the Russell 1000 Growth index by 0.98%, a return that ranks ahead of 92% of large cap growth peers.¹

Inception 7/1/2006

The Large Cap Growth strategy seeks to produce long-term, excess returns vs. the Russell 1000[®] Growth Index on a risk-adjusted basis over a full market cycle (at least five years) through bottom-up stock selection.

All Cap Growth Strategy

\$4.2 billion AUM

Since inception in 2006, the [All Cap Growth Composite](#) has generated an annualized net return of 14.70%, outperforming the Russell 3000 Growth index by 1.55%, a return that ranks ahead of 82% of category peers.²

[The GES team](#) takes a long-term, private equity approach to investing. Through its proprietary bottom-up research framework, it looks to invest in those few high-quality businesses with sustainable competitive advantages and profitable growth when they trade at a significant discount to the team's estimate of intrinsic value. The GES team believes a focus on the quality of a manager's investment philosophy, process, and decision-making is essential for assessing the probability of future success. [The GES alpha thesis](#) encapsulates a deeply held system of persistent beliefs, a rigorous, repeatable investment process and substantive proof points.

“As founder, chief investment officer and portfolio manager for the Growth Equity Strategies team, Aziz demonstrates an incredible passion for investing and an investor-centric mindset every single day,” said Kevin Charleston, chief executive officer and president of Loomis Sayles. “Over the past decade, Aziz has delivered tremendous value for our investors and our firm. His unique growth equity alpha thesis is truly differentiated in the marketplace and we believe his investment philosophy, process and decision-making will continue to drive impressive achievements well into the future.”

“Our team has a passion for the independent, deep fundamental research required to identify those few great businesses with sustainable competitive advantages and secular growth as well as the patience and discipline to invest only when they trade at a significant discount to our estimate of intrinsic value,” said

Aziz Hamzaogullari. “Celebrating our 10-year anniversary with Loomis Sayles, I would like to say thank you to all of our investors for their trust. We work very hard every day to earn it, and we look forward to serving you for many years to come.”

About Risk

Equity securities are volatile and can decline significantly in response to broad market and economic conditions. Foreign and emerging market securities may be subject to greater political, economic, environmental, credit, currency and information risks. Foreign securities may be subject to higher volatility than US securities due to varying degrees of regulation and limited liquidity. These risks are magnified in emerging markets. Investments in small and mid-size companies can be more volatile than those of larger companies. Growth stocks may be more sensitive to market conditions than other equities as their prices strongly reflect future expectations. Currency exchange rates between the US dollar and foreign currencies may cause the value of the fund's investments to decline.
