

Emerging Markets Debt Local Currency

MANAGEMENT TEAM

Peter A. Frick, CFA
David W. Rolley, CFA
Edgardo Sternberg

OBJECTIVE

Seeks to outperform the benchmark over a full market cycle with index-like volatility and to manage risk through diversification and monitoring of absolute risk and tracking error versus the benchmark

HIGHLIGHTS

- Value-oriented portfolio investing primarily in local currency debt of sovereign and quasi-sovereign entities located in emerging market economies
- May opportunistically hold local currency corporates as well as hard currency securities
- Seeks to add value by combining top-down macroeconomic analysis with research-driven, bottom-up security selection
- Leverages Loomis Sayles' extensive macroeconomic and credit research including coverage of more than 60 emerging markets countries and over 400 emerging markets corporate, sovereign and quasi-sovereign issuers
- Ability to express views on broad market exposure through derivatives (inclusive of options, forwards, futures, forward contracts and swap contracts)
- Effective duration: typically +/- 2 years relative to the Index
- Typical average quality: BBB
- Allocation to high yield: typically less than 40%
- Targeted tracking error: 100 to 200 basis points
- Typical portfolio: 60 to 120 issues

BENCHMARK

JP Morgan Government Bond Index - Emerging Markets Global Diversified Index

**Prior to 9/1/09, the Composite benchmark was the JP Morgan GBI-EM Index.*

Diversification does not ensure a profit or guarantee against a loss.

Loomis, Sayles & Company, L.P. ("Loomis Sayles") is an independent advisory firm registered under the Investment Advisors Act of 1940. For additional information on this and other Loomis Sayles strategies, please visit our website at www.loomissayles.com.

Performance data shown represents past performance and is no guarantee of future results. Current performance may be lower or higher than quoted. Returns are shown in US dollars and are annualized for one and multi-year periods. Gross returns are net of trading costs. Net returns are gross returns less effective management fees.

There is no guarantee that the investment objective will be realized or that the strategy will generate positive or excess return.

Duration and Maturity for equity securities are deemed to be zero.

For Institutional Use Only. Not For Further Distribution.

KEY RISKS

Credit Risk, Issuer Risk, Interest Rate Risk, Liquidity Risk, Non-US Securities Risk, Currency Risk, Prepayment Risk and Extension Risk. Investing involves risk including possible loss of principal. Commodity interest and derivative trading involves substantial risk of loss.

Due to rounding, Sector, Currency, Credit Quality, Duration and Maturity distribution totals may not equal 100%. Country Distribution reflects breakdown of the top 10 country allocations only and therefore does not total 100%. This portfolio is actively managed and characteristics are subject to change. Credit Quality reflects the highest credit rating assigned to individual holdings of the composite among Moody's, S&P or Fitch; ratings are subject to change. Cash & Equivalents may include unsettled trades, fees and/or derivatives.

The Emerging Markets Debt Local Currency Composite includes all discretionary accounts managed by Loomis Sayles with guidelines prescribing investment in local currency debt of sovereign, quasi-sovereign and corporate entities located in emerging market economies and that are benchmarked to a local currency emerging market index. Loomis Sayles's security level research, allocation to non-index sectors, and significant tactical country, sector and currency allocation are primary alpha sources for this product. The Composite was created in 2007. For additional information on this and other Loomis Sayles strategies, please visit our website at www.loomisayles.com.
