

HARISH SUNDARESH

Harish Sundaresh is a portfolio manager at Loomis, Sayles & Company. As director of the firm's systematic investing strategies team, he leads a team responsible for quantitative investing across all asset classes using advanced mathematical techniques. This includes alpha generation, dynamic portfolio construction and solutions development.

Prior to joining Loomis Sayles in 2010, Harish was a partner, director and portfolio manager at Armored Wolf, a global macro hedge fund based in Orange County. Previously, he was a quantitative analyst at Duff Capital Advisors, a global macro tiger cub hedge fund and at UBS Investment Bank, based in New York. Harish earned a BS in electrical engineering from Anna University, India and an SM in applied mathematics (computational engineering) from the Massachusetts Institute of Technology. He also serves as an editor and reviewer for several quantitative financial conferences and journals, and has been quoted in leading financial publications including the Wall Street Journal, Bloomberg and the Financial Times.
