Letter from the President

Dear Shareholder:

US stock markets posted modest gains for the 12 months ended November 30, 2018, despite a resurgence in volatility during the last two months of the period. US bond markets declined slightly as rates rose. The Federal Open Market Committee (the Fed) raised the federal funds rate four times during the period, to the current level of 2.00-2.25%, and concerns about the future path of interest rates began to surface.

US investments continued to outpace their international peers, and global growth became less synchronized as the year progressed. Returns for international stocks were negative, particularly in emerging markets. Global bond markets finished slightly lower than their US counterparts.

US economy still strong, but volatility is picking up

The pattern of steady growth continued, and the US remains in a full-employment economy. The unemployment rate ended the period at 3.7%, near its 50-year low, and the pace of inflation rose slightly. Equities enjoyed a boost from corporate tax cuts early in the calendar year, but a combination of factors including trade tariff discussions and geopolitical uncertainty prompted turbulence across global markets through the end of the period.

While the economic picture remains positive, the extraordinarily calm market environment that prevailed throughout 2017 may have run its course. We encourage you to work closely with your financial professional to keep your portfolio allocations aligned with your long-term goals and tolerance for risk.

Investment Goal

The Fund seeks to provide a high level of current income.

Market Conditions

Financial markets generally rewarded riskier assets during the reporting period, as the bank loan market outperformed less risky fixed income asset classes and loan returns for the period generally favored lower-rated loans. Volatility increased during the last two months of the reporting period, and the majority of loans in the S&P/LSTA Leveraged Loan index were priced between 98 and par at the end of the period.

The three major sources of technical demand for bank loans were generally positioned favorably. Collateralized loan obligation (CLO) issuance was very strong at \$133 billion, and retail flows were positive for most of the period, totaling \$8 billion. In addition, institutional demand appears to have had a modest positive impact.

A demand surplus occurred for most of the period, but conditions reversed in October and through November. Nonetheless, the bank loan index grew by approximately 18% and now stands at \$1.13 trillion.

Performance Results

For the 12 months ended November 30, 2018, Class Y shares of Loomis Sayles Senior Floating Rate and Fixed Income Fund returned 3.03% at net asset value. The Fund underperformed its benchmark, the S&P/LSTA Leveraged Loan Index, which returned 3.47%.

Explanation of Fund Performance

We have seen a few issuers, including some of our high yield bonds, endure some volatility over the past few months, contributing to return below the benchmark. We believe that in the aggregate these issues will be positive contributors to performance and we are generally choosing to hold through that volatility.

We targeted a yield advantage for the Fund relative to the benchmark in most market conditions. Looking at account return, the Fund's best performing industry was equipment leasing, while the worst was home furnishings. Holdings of second lien loans, which are subordinate to more senior loans, contributed to our overall performance.

The Fund is currently positioned with about 88% in bank loans, 6% in bonds and 6% held in cash on a trade-date basis, very much in line with the allocations over the prior 12 months. A relatively small allocation to high yield corporate bonds detracted from performance over the period. We continue to believe the high yield market looks expensive when compared to bank loans. The Fund’s exposure to second liens decreased somewhat during the 12-month period as some second liens were repaid and the inventory available in the market declined.

The bank loan market generally experienced positive investor sentiment during the period, though financial markets generally saw greater volatility during the last two months of the period. The fund continued its focus on credit selection and generating a high level of current income rather than defensive tactics. This is due to our fundamentally positive intermediate view of the US loan market. There were no significant shifts in our macroeconomic view during the reporting period.

Outlook

We expect CLO formation to remain a positive technical driver for loan demand through 2019. We expect to see future coupon increases on loans as the Federal Reserve raises rates and for the market to anticipate such increases. We believe that low levels of loan maturities through 2019 and 2020, coupled with high rates of refinancing, should help keep default rates below historic averages. We are wary of market sentiment that seems eager to embrace negative long-term views. However, risk-off markets may occur at any time if investors react to one or more of the ever-present global risk factors.

Performance data shown represents past performance and is no guarantee of, and not necessarily indicative of, future results. Total return and value will vary, and you may have a gain or loss when shares are sold. Current performance may be lower or higher than quoted. For most recent month-end performance, visit im.natixis.com/performance. Performance for other share classes will be greater or less than shown based on differences in fees and sales charges. You may not invest directly in an index. Performance for periods less than one year is cumulative, not annualized. Returns reflect changes in share price and reinvestment of dividends and capital gains, if any. The table(s) do not reflect taxes shareholders might owe on any fund distributions or when they redeem their shares.

- 1 9/30/11 represents the date Class Y shares were first registered for public sale under the Securities Act of 1933. 9/16/11 represents commencement of operations for Class Y shares for accounting and financial reporting purposes only.
- 2 Performance for Class C shares assumes a 1% contingent deferred sales charge ("CDSC") applied when you sell shares within one year of purchase.
- 3 The S&P/LSTA Leveraged Loan Index (LLI) covers loan facilities and reflects the market-value-weighted performance of U.S. dollar-denominated institutional leveraged loans.
- 4 Fund performance has been increased by fee waivers and/or expense reimbursements, if any, without which performance would have been lower.
- 5 Expense ratios are as shown in the Fund's prospectus in effect as of the date of this report. The expense ratios for the current reporting period can be found in the Financial Highlights section of this report under Ratios to Average Net Assets. Net expenses reflect contractual expense caps set to expire on 3/31/19. When a Fund's expenses are below the cap, gross and net expense ratios will be the same. See Note 5 of the Notes to Financial Statements for more information about the Fund's expense caps.

ADDITIONAL INFORMATION

PROXY VOTING INFORMATION

A description of the Natixis Funds' proxy voting policies and procedures is available without charge, upon request, by calling Natixis Funds at 800-225-5478; on Natixis Funds' website at im.natixis.com; and on the Securities and Exchange Commission's (SEC) website at www.sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available from Natixis Funds' website and the SEC's website.

QUARTERLY PORTFOLIO SCHEDULES

The Fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

UNDERSTANDING FUND EXPENSES

As a mutual fund shareholder, you incur different costs: transaction costs, including sales charges (loads) on purchases and contingent deferred sales charges on redemptions and ongoing costs, including management fees, distribution and/or service fees (12b-1 fees), and other fund expenses. Certain exemptions may apply. These costs are described in more detail in the Fund's prospectus. The following examples are intended to help you understand the ongoing costs of investing in the Fund and help you compare these with the ongoing costs of investing in other mutual funds.

The first line in the table of each class of Fund shares shows the actual account values and actual Fund expenses you would have paid on a \$1,000 investment in the Fund from June 1, 2018 through November 30, 2018. To estimate the expenses you paid over the period, simply divide your account value by \$1,000 (for example \$8,600 account value divided by \$1,000 = 8.60) and multiply the result by the number in the Expenses Paid During Period column as shown below for your class.

The second line in the table of each class of Fund shares provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid on your investment for the period. You may use this information to compare the ongoing costs of investing in the Fund to other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown reflect ongoing costs only, and do not include any transaction costs, such as sales charges. Therefore, the second line in the table of each Fund is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. If transaction costs were included, total costs would be higher.

Notes to Financial Statements

November 30, 2018

1. Organization. Natixis Funds Trust II (the “Trust”) is organized as a Massachusetts business trust. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Declaration of Trust permits the Board of Trustees to authorize the issuance of an unlimited number of shares of the Trust in multiple series. The financial statements for certain funds of the Trust are presented in separate reports. Information presented in this report pertains to Loomis Sayles Senior Floating Rate and Fixed Income Fund (the “Fund”).

The Fund is a non-diversified investment company.

The Fund offers Class A, Class C, Class N and Class Y shares. Class A shares are sold with a maximum front-end sales charge of 3.50%. Class C shares do not pay a front-end sales charge, pay higher Rule 12b-1 fees than Class A shares for ten years (at which point they automatically convert to Class A shares) and may be subject to a contingent deferred sales charge (“CDSC”) of 1.00% if those shares are redeemed within one year of acquisition, except for reinvested distributions. Class N and Class Y shares do not pay a front-end sales charge, a CDSC or Rule 12b-1 fees. Class N shares are offered with an initial minimum investment of \$1,000,000. Class Y shares are offered with an initial minimum investment of \$100,000. Certain categories of investors are exempted from the minimum investment amounts for Class N and Class Y as outlined in the Fund’s prospectus.

Most expenses can be directly attributed to a Fund. Expenses which cannot be directly attributed to a Fund are generally apportioned based on the relative net assets of each of the funds in Natixis Funds Trust I, Natixis Funds Trust II, Natixis Funds Trust IV and Gateway Trust (“Natixis Funds Trusts”), Loomis Sayles Funds I and Loomis Sayles Funds II (“Loomis Sayles Funds Trusts”) and Natixis ETF Trust. Expenses of the Fund are borne *pro rata* by the holders of each class of shares, except that each class bears expenses unique to that class (such as the Rule 12b-1 fees applicable to Class A and Class C), and transfer agent fees are borne collectively for Class A, Class C and Class Y, and individually for Class N. In addition, each class votes as a class only with respect to its own Rule 12b-1 Plan. Shares of each class would receive their *pro rata* share of the net assets of the Fund if the Fund were liquidated. The Trustees approve separate distributions from net investment income on each class of shares.

2. Significant Accounting Policies. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The Fund’s financial statements follow the accounting and reporting guidelines provided for investment companies and are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. Management has evaluated the events and transactions subsequent to

Notes to Financial Statements (continued)

November 30, 2018

year-end through the date the financial statements were issued and has determined that there were no material events that would require disclosure in the Fund's financial statements.

a. Valuation. Fund securities and other investments are valued at market value based on market quotations obtained or determined by independent pricing services recommended by the adviser and approved by the Board of Trustees. Fund securities and other investments for which market quotations are not readily available are valued at fair value as determined in good faith by the adviser pursuant to procedures approved by the Board of Trustees, as described below. Market value is determined as follows:

Senior loans are valued at bid prices supplied by an independent pricing service, if available. Debt securities and unlisted preferred equity securities are valued based on evaluated bids furnished to the Fund by an independent pricing service or bid prices obtained from broker-dealers. Listed equity securities (including shares of closed-end investment companies and exchange-traded funds) are valued at the last sale price quoted on the exchange where they are traded most extensively or, if there is no reported sale during the day, the closing bid quotation as reported by an independent pricing service. Securities traded on the NASDAQ Global Select Market, NASDAQ Global Market and NASDAQ Capital Market are valued at the NASDAQ Official Closing Price ("NOCP"), or if lacking an NOCP, at the most recent bid quotations on the applicable NASDAQ Market. Unlisted equity securities (except unlisted preferred equity securities) are valued at the last sale price quoted in the market where they are traded most extensively or, if there is no reported sale during the day, the closing bid quotation as reported by an independent pricing service. If there is no last sale price or closing bid quotation available, unlisted equity securities will be valued using evaluated bids furnished by an independent pricing service, if available. In some foreign markets, an official close price and a last sale price may be available from the foreign exchange or market. In those cases, the official close price is used. Broker-dealer bid prices may be used to value debt and unlisted equity securities and senior loans where an independent pricing service is unable to price a security or where an independent pricing service does not provide a reliable price for the security.

Fund securities and other investments for which market quotations are not readily available are valued at fair value as determined in good faith by the adviser pursuant to procedures approved by the Board of Trustees. The Fund may also value securities and other investments at fair value in other circumstances such as when extraordinary events occur after the close of a foreign market but prior to the close of the New York Stock Exchange. This may include situations relating to a single issuer (such as a declaration of bankruptcy or a delisting of the issuer's security from the primary market on which it has traded) as well as events affecting the securities markets in general (such as market disruptions or closings and significant fluctuations in U.S. and/or foreign markets). When fair valuing its securities or other investments, the Fund may,

Notes to Financial Statements (continued)

November 30, 2018

among other things, use modeling tools or other processes that may take into account factors such as securities or other market activity and/or significant events that occur after the close of the foreign market and before the time the Fund's net asset value ("NAV") is calculated. Fair value pricing may require subjective determinations about the value of a security, and fair values used to determine a Fund's NAV may differ from quoted or published prices, or from prices that are used by others, for the same securities. In addition, the use of fair value pricing may not always result in adjustments to the prices of securities held by the Fund.

Illiquid securities for which market quotations are readily available and have been evaluated by the adviser are considered and classified as fair valued securities pursuant to the Fund's pricing policies and procedures.

As of November 30, 2018, securities held by the Fund were fair valued as follows:

Securities classified as <u>fair valued</u>	Percentage of Net <u>Assets</u>	Securities fair valued by the <u>Fund's adviser</u>	Percentage of Net <u>Assets</u>
\$23,724,630	0.6%	\$0	0.0%

b. Investment Transactions and Related Investment Income. Investment transactions are accounted for on a trade date plus one day basis for daily NAV calculation. However, for financial reporting purposes, investment transactions are reported on trade date. Dividend income is recorded on ex-dividend date, or in the case of certain foreign securities, as soon as the Fund is notified, and interest income is recorded on an accrual basis. Interest income is increased by the accretion of discount and decreased by the amortization of premium, if applicable. For securities with paydown provisions, principal payments received are treated as a proportionate reduction to the cost basis of the securities, and excess or shortfall amounts are recorded as income. In determining net gain or loss on securities sold, the cost of securities has been determined on an identified cost basis. Investment income, non-class specific expenses and realized and unrealized gains and losses are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of the Fund.

c. New Disclosure Requirements. In accordance with new reporting requirements pursuant to Regulation S-X of the Securities and Exchange Commission, presentation of certain amounts on the Statement of Changes in Net Assets for the year ended November 30, 2017 have been conformed to the new disclosure requirements. Where the prior disclosure of Distributions to Shareholders separately stated distributions from net investment income and from net realized capital gains for each share class of the Fund, they are now combined into a single line item for each respective share class. In addition, disclosure of Undistributed Net Investment Income has been removed from the Statement of Changes in Net Assets.

Notes to Financial Statements (continued)

November 30, 2018

The following is a summary of the previously disclosed amounts, as reported at November 30, 2017:

FROM DISTRIBUTIONS TO SHAREHOLDERS:

Net investment income	
Class A	\$ (22,962,420)
Class C	(14,637,354)
Class N	(3,467)
Class Y	<u>(110,906,925)</u>
Total distributions	<u>\$ (148,510,166)</u>
UNDISTRIBUTED NET INVESTMENT INCOME	<u>\$ 1,429,439</u>

There were no distributions from net realized capital gains for the year ended November 30, 2017.

d. Federal and Foreign Income Taxes. The Fund intends to meet the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute to its shareholders substantially all of its net investment income and any net realized capital gains at least annually. Management has performed an analysis of the Fund's tax positions for the open tax years as of November 30, 2018 and has concluded that no provisions for income tax are required. The Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service. Management is not aware of any events that are reasonably possible to occur in the next twelve months that would result in the amounts of any unrecognized tax benefits significantly increasing or decreasing for the Fund. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws and accounting regulations and interpretations thereof.

The Fund may be subject to foreign withholding taxes on investment income and taxes on capital gains on investments that are accrued and paid based upon the Fund's understanding of the tax rules and regulations that exist in the countries in which the Fund invests. Foreign withholding taxes on dividend and interest income are reflected on the Statement of Operations as a reduction of investment income, net of amounts eligible to be reclaimed. Dividends and interest receivable on the Statement of Assets and Liabilities are net of foreign withholding taxes. Foreign withholding taxes where reclaims have been or will be filed are reflected on the Statement of Assets and Liabilities as tax reclaims receivable. Capital gains taxes paid are included in net realized gain (loss) on investments in the Statement of Operations. Accrued but unpaid capital gains taxes are reflected as foreign taxes payable on the Statement of Assets and Liabilities, if applicable, and reduce unrealized gains on investments. In the event that realized gains on investments are subsequently offset by realized losses, taxes paid on realized gains may be returned to the Fund. Such amounts, if applicable, are reflected as foreign tax rebates receivable on the Statement of Assets and Liabilities and are recorded as a realized gain when received.

Notes to Financial Statements (continued)

November 30, 2018

e. Dividends and Distributions to Shareholders. Dividends and distributions are recorded on ex-dividend date. The timing and characterization of certain income and capital gain distributions are determined in accordance with federal tax regulations, which may differ from accounting principles generally accepted in the United States of America. Permanent differences are primarily due to differing treatments for book and tax purposes of items such as premium amortization, deferred Trustees' fees, partnership basis adjustments, distributions in excess of income and/or capital gain and paydown gains and losses. Permanent book and tax basis differences relating to shareholder distributions, net investment income, and net realized gains will result in reclassifications to capital accounts reported on the Statement of Assets and Liabilities. Temporary differences between book and tax distributable earnings are primarily due to deferred Trustees' fees, wash sales and premium amortization. Amounts of income and capital gain available to be distributed on a tax basis are determined annually, and at other times during the Fund's fiscal year as may be necessary to avoid knowingly declaring and paying a return of capital distribution. Distributions from net investment income and net realized short-term capital gains are reported as distributed from ordinary income for tax purposes.

The tax characterization of distributions is determined on an annual basis. The tax character of distributions paid to shareholders during the years ended November 30, 2018 and 2017 were as follows:

<u>2018 Distributions Paid From:</u>			<u>2017 Distributions Paid From:</u>		
<u>Ordinary</u>	<u>Long-Term</u>		<u>Ordinary</u>	<u>Long-Term</u>	
<u>Income</u>	<u>Capital Gains</u>	<u>Total</u>	<u>Income</u>	<u>Capital Gains</u>	<u>Total</u>
\$209,687,463	\$ —	\$209,687,463	\$148,510,166	\$ —	\$148,510,166

Distributions paid to shareholders from net investment income and net realized capital gains, based on accounting principles generally accepted in the United States of America, are consolidated and reported on the Statement of Changes in Net Assets as Distributions to Shareholders. Distributions paid to shareholders from net investment income and net realized capital gains expressed in per-share amounts, based on accounting principles generally accepted in the United States of America, are separately stated and reported within the Financial Highlights.

Notes to Financial Statements (continued)

November 30, 2018

As of November 30, 2018, the components of distributable earnings on a tax basis were as follows:

Capital loss carryforward:

Short-term:

No expiration date \$ (27,375,028)

Long-term:

No expiration date (106,302,573)

Total capital loss carryforward (133,677,601)

Unrealized depreciation (123,055,489)

Total accumulated losses \$(256,733,090)

As of November 30, 2018, the cost of investments and unrealized appreciation (depreciation) on a federal tax basis were as follows:

Federal tax cost \$4,017,524,847

Gross tax appreciation \$ 6,316,336

Gross tax depreciation (129,371,825)

Net tax depreciation \$ (123,055,489)

f. Repurchase Agreements. The Fund may enter into repurchase agreements, under the terms of a Master Repurchase Agreement, under which the Fund acquires securities as collateral and agrees to resell the securities at an agreed upon time and at an agreed upon price. It is the Fund's policy that the market value of the collateral for repurchase agreements be at least equal to 102% of the repurchase price, including interest. Certain repurchase agreements are tri-party arrangements whereby the collateral is held in a segregated account for the benefit of the Fund and on behalf of the counterparty. Repurchase agreements could involve certain risks in the event of default or insolvency of the counterparty, including possible delays or restrictions upon the Fund's ability to dispose of the underlying securities. As of November 30, 2018, the Fund had investments in repurchase agreements for which the value of the related collateral exceeded the value of the repurchase agreement. The gross value of repurchase agreements is included in the Statement of Assets and Liabilities for financial reporting purposes.

g. Unfunded Loan Commitments. The Fund may enter into unfunded loan commitments, which are contractual obligations for future funding at the option of the borrower. Unfunded loan commitments represent a future obligation, in full, even though a percentage of the committed amount may not be utilized by the borrower. Unfunded loan commitments, and the obligation for future funding, are recorded as a liability on the Statement of Assets and Liabilities at par value at the time the commitment is entered into. Purchases of unfunded loan commitments may have a

Notes to Financial Statements (continued)

November 30, 2018

similar effect on the Fund's NAV as if the Fund had created a degree of leverage in the portfolio. Market risk exists on purchases of these commitments to the same extent as if the securities were owned on a settled basis. Losses may arise due to changes in the value of the unfunded loan commitments.

As of November 30, 2018, the Fund had unfunded loan commitments, which could be extended at the option of the borrower, pursuant to loan agreements with the following borrowers:

<u>Borrower</u>	<u>Type</u>	<u>Principal Amount</u>	<u>Value</u>
Access CIG LLC	2018 Delayed Draw Term Loan	\$1,297,255	\$1,294,662
AqGen Ascensus, Inc.	2018 Delayed Draw Term Loan	584,863	579,745
St. Georges University	2018 Delayed Draw Term Loan	2,082,146	2,071,735
		<u>\$3,964,264</u>	<u>\$3,946,142</u>

h. Indemnifications. Under the Trust's organizational documents, its officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

3. Fair Value Measurements. In accordance with accounting standards related to fair value measurements and disclosures, the Fund has categorized the inputs utilized in determining the value of the Fund's assets or liabilities. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – prices determined using other significant inputs that are observable either directly, or indirectly through corroboration with observable market data (which could include quoted prices for similar assets or liabilities, interest rates, credit risk, etc.); and
- Level 3 – prices determined using significant unobservable inputs when quoted prices or observable inputs are unavailable such as when there is little or no market activity for an asset or liability (unobservable inputs reflect the Fund's own assumptions in determining the fair value of assets or liabilities and would be based on the best information available).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Notes to Financial Statements (continued)

November 30, 2018

The Fund's pricing policies and procedures are recommended by the adviser and approved by the Board of Trustees. Debt securities are valued based on evaluated bids furnished to the Fund by an independent pricing service. Broker-dealer bid prices may be used if an independent pricing service either is unable to price a security or does not provide a reliable price for a security. Broker-dealer bid prices for which the Fund does not have knowledge of the inputs used by the broker-dealer are categorized in Level 3. All security prices, including those obtained from an independent pricing service and broker-dealer bid prices, are reviewed on a daily basis by the adviser, subject to oversight by Fund management and the Board of Trustees. If the adviser, in good faith, believes that the price provided by an independent pricing service is unreliable, broker-dealer bid prices may be used until the price provided by the independent pricing service is considered to be reliable. Reliability of all security prices, including those obtained from an independent pricing service and broker-dealer bid prices, is tested in a variety of ways, including comparison to recent transaction prices and daily fluctuations, amongst other validation procedures in place. Securities for which market quotations are not readily available are valued at fair value as determined in good faith by the Fund's adviser pursuant to procedures approved by the Board of Trustees. Fair valued securities may be categorized in Level 3.

(a) At November 30, 2017, includes a security fair valued at zero using level 3 inputs. At November 30, 2018, this security was valued at zero using closing bid quotations provided by an independent pricing service and was subsequently transferred to level 2.

(b) Fair Valued at zero.

Notes to Financial Statements (continued)

November 30, 2018

A senior loan valued at \$2,384,581 was transferred from Level 3 to Level 2 during the period ended November 30, 2018. At November 30 2017, this security was valued at fair value as determined in good faith by the Fund's adviser pursuant to procedures approved by the Board of Trustees. At November 30, 2018, this security was valued at a bid price furnished to the Fund by an independent pricing service in accordance with the Fund's valuation policies.

Senior loans valued at \$3,825,581 were transferred from Level 3 to Level 2 during the period ended November 30, 2018. At November 30, 2017, these securities were valued using broker-dealer bid prices based on inputs unobservable to the Fund as an independent pricing service did not provide a reliable price for the securities. At November 30, 2018, these securities were valued at a bid price furnished to the Fund by an independent pricing service in accordance with the Fund's valuation policies.

Common stocks valued at \$6,584,550 were transferred from Level 3 to Level 2 during the period ended November 30, 2018. At November 30 2017, these securities were valued at fair value as determined in good faith by the Fund's adviser pursuant to procedures approved by the Board of Trustees. At November 30, 2018, these securities were valued on the basis of closing bid quotations furnished to the Fund by an independent pricing service in accordance with the Fund's valuation policies.

All transfers are recognized as of the beginning of the reporting period.

4. Purchases and Sales of Securities. For the year ended November 30, 2018, purchases and sales of securities (excluding short-term investments and U.S. Government/Agency securities and including paydowns) were \$3,300,408,658 and \$2,257,789,430, respectively.

5. Management Fees and Other Transactions with Affiliates.

a. Management Fees. Loomis, Sayles & Company, L.P. ("Loomis Sayles") serves as investment adviser to the Fund.

Loomis Sayles is a limited partnership whose sole general partner, Loomis, Sayles & Company, Inc., is indirectly owned by Natixis Investment Managers, L.P. ("Natixis"), which is part of Natixis Investment Managers, an international asset management group based in Paris, France.

Under the terms of the management agreement, the Fund pays a management fee at the annual rate of 0.60%, calculated daily and payable monthly, based on the Fund's average daily managed assets, which include borrowings used for leverage.

Loomis Sayles has given a binding undertaking to the Fund to waive management fees and/or reimburse certain expenses to limit the Fund's operating expenses, exclusive of acquired fund fees and expenses, brokerage expenses, interest expense, taxes,

Notes to Financial Statements (continued)

November 30, 2018

organizational and extraordinary expenses such as litigation and indemnification expenses. This undertaking is in effect until March 31, 2019, may be terminated before then only with the consent of the Fund’s Board of Trustees, and is reevaluated on an annual basis. Management fees payable, as reflected on the Statement of Assets and Liabilities, is net of waivers and/or expense reimbursements, if any, pursuant to this undertaking.

For the year ended November 30, 2018, the expense limits as a percentage of average daily net assets under the expense limitation agreement were as follows:

Expense Limit as a Percentage of <u>Average Daily Net Assets</u>			
<u>Class A</u>	<u>Class C</u>	<u>Class N</u>	<u>Class Y</u>
1.05%	1.80%	0.75%	0.80%

Loomis Sayles shall be permitted to recover expenses borne under the expense limitation agreement (whether through waiver of management fees or otherwise) on a class by class basis in later periods to the extent the annual operating expenses of a class fall below a class’ expense limits, provided, however, that a class is not obligated to pay such waived/reimbursed fees or expenses more than one year after the end of the fiscal year in which the fees or expenses were waived/reimbursed.

For the year ended November 30, 2018, the management fees and waiver of management fees for the Fund were as follows:

Gross Management Fees	Contractual Waivers of Management Fees ¹	Net Management Fees	Percentage of Average Daily <u>Net Assets</u>	
			<u>Gross</u>	<u>Net</u>
\$22,123,540	\$165,063	\$21,958,477	0.60%	0.60%

¹ Management fee waiver is subject to possible recovery until November 30, 2019.

No expenses were recovered for the Fund during the year ended November 30, 2018 under the terms of the expense limitation agreements.

b. Service and Distribution Fees. Natixis Distribution, L.P. (“Natixis Distribution”), which is a wholly-owned subsidiary of Natixis, has entered into a distribution agreement with the Trust. Pursuant to this agreement, Natixis Distribution serves as principal underwriter of the Funds of the Trust.

Pursuant to Rule 12b-1 under the 1940 Act, the Trust has adopted a Service Plan relating to the Fund’s Class A shares (the “Class A Plan”) and a Distribution and Service Plan relating to the Fund’s Class C shares (the “Class C Plan”).

Under the Class A Plan, the Fund pays Natixis Distribution a monthly service fee at an annual rate not to exceed 0.25% of the average daily net assets attributable to the

Notes to Financial Statements (continued)

November 30, 2018

Fund's Class A shares, as reimbursement for expenses incurred by Natixis Distribution in providing personal services to investors in Class A shares and/or the maintenance of shareholder accounts.

Under the Class C Plan, the Fund pays Natixis Distribution a monthly service fee at an annual rate not to exceed 0.25% of the average daily net assets attributable to the Fund's Class C shares, as compensation for services provided by Natixis Distribution in providing personal services to investors in Class C shares and/or the maintenance of shareholder accounts.

Also under the Class C Plan, the Fund pays Natixis Distribution a monthly distribution fee at an annual rate of 0.75% of the average daily net assets attributable to the Fund's Class C shares, as compensation for services provided by Natixis Distribution in connection with the marketing or sale of Class C shares.

For the year ended November 30, 2018, the service and distribution fees for the Fund were as follows:

<u>Service Fees</u>		<u>Distribution Fees</u>
<u>Class A</u>	<u>Class C</u>	<u>Class C</u>
\$1,354,315	\$838,226	\$2,514,680

c. Administrative Fees. Natixis Advisors, L.P. ("Natixis Advisors") provides certain administrative services for the Fund and contracts with State Street Bank and Trust Company ("State Street Bank") to serve as sub-administrator. Natixis Advisors is a wholly-owned subsidiary of Natixis. Pursuant to an agreement among Natixis Funds Trusts, Loomis Sayles Funds Trusts, Natixis ETF Trust and Natixis Advisors, the Fund pays Natixis Advisors monthly its *pro rata* portion of fees equal to an annual rate of 0.0575% of the first \$15 billion of the average daily net assets of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, 0.0500% of the next \$15 billion, 0.0400% of the next \$30 billion, 0.0275% of the next \$30 billion and 0.0225% of such assets in excess of \$90 billion, subject to an annual aggregate minimum fee for the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust of \$10 million, which is reevaluated on an annual basis.

Prior to July 1, 2018, each Fund paid Natixis Advisors monthly its *pro rata* portion of fees equal to an annual rate of 0.0575% of the first \$15 billion of the average daily net assets of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, 0.0500% of the next \$15 billion, 0.0400% of the next \$30 billion, 0.0350% of the next \$30 billion and 0.0325% of such assets in excess of \$90 billion, subject to an annual aggregate minimum fee for the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust of \$10 million, which was reevaluated on an annual basis.

Effective October 1, 2018, State Street Bank agreed to reduce the fees it receives from Natixis Advisors for serving as sub-administrator to the Fund. Also, effective October 1,

Notes to Financial Statements (continued)

November 30, 2018

2018, Natixis Advisors agreed to voluntarily waive fees paid by the Fund in an amount equal to the reduction in sub-administrative fees discussed above. The waiver is in effect through June 30, 2019.

For the year ended November 30, 2018, the administrative fees for the Fund were as follows:

<u>Gross</u> <u>Administrative Fees</u>	<u>Waiver of</u> <u>Administrative Fees</u>	<u>Net</u> <u>Administrative Fees</u>
\$1,615,409	\$6,718	\$1,608,691

d. Sub-Transfer Agent Fees. Natixis Distribution has entered into agreements, which include servicing agreements, with financial intermediaries that provide recordkeeping, processing, shareholder communications and other services to customers of the intermediaries that hold positions in the Fund and has agreed to compensate the intermediaries for providing those services. Intermediaries transact with the Fund primarily through the use of omnibus accounts on behalf of their customers who hold positions in the Fund. These services would have been provided by the Fund's transfer agent and other service providers if the shareholders' accounts were maintained directly at the Fund's transfer agent. Accordingly, the Fund has agreed to reimburse Natixis Distribution for all or a portion of the servicing fees paid to these intermediaries. The reimbursement amounts (sub-transfer agent fees) paid to Natixis Distribution are subject to a current per-account equivalent fee limit approved by the Fund's Board of Trustees, which is based on fees for similar services paid to the Fund's transfer agent and other service providers. Class N shares do not bear such expenses.

For the year ended November 30, 2018, the sub-transfer agent fees (which are reflected in transfer agent fees and expenses in the Statement of Operations) for the Fund were \$2,040,675.

As of November 30, 2018, the Fund owes Natixis Distribution \$16,575 in reimbursements for sub-transfer agent fees (which are reflected in the Statement of Assets and Liabilities as payable to distributor).

e. Commissions. Commissions (including CDSCs) on Fund shares retained by Natixis Distribution during the year ended November 30, 2018 amounted to \$158,534.

f. Trustees Fees and Expenses. The Trust does not pay any compensation directly to its officers or Trustees who are directors, officers or employees of Natixis Advisors, Natixis Distribution, Natixis or their affiliates. The Chairperson of the Board of Trustees receives a retainer fee at the annual rate of \$340,000. The Chairperson does not receive any meeting attendance fees for Board of Trustees meetings or committee meetings that he attends. Each Independent Trustee (other than the Chairperson) receives, in the aggregate, a retainer fee at the annual rate of \$170,000. Each Independent Trustee also

Notes to Financial Statements (continued)

November 30, 2018

receives a meeting attendance fee of \$10,000 for each meeting of the Board of Trustees that he or she attends in person and \$5,000 for each meeting of the Board of Trustees that he or she attends telephonically. In addition, the chairperson of the Contract Review Committee and the chairperson of the Audit Committee each receive an additional retainer fee at the annual rate of \$20,000. The chairperson of the Governance Committee receives an additional retainer fee at the annual rate of \$12,000. Each Contract Review Committee member is compensated \$6,000 for each Committee meeting that he or she attends in person and \$3,000 for each meeting that he or she attends telephonically. Each Audit Committee member is compensated \$6,000 for each Committee meeting that he or she attends in person and \$3,000 for each meeting that he or she attends telephonically. These fees are allocated among the funds in the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust based on a formula that takes into account, among other factors, the relative net assets of each fund. Trustees are reimbursed for travel expenses in connection with attendance at meetings.

Prior to January 1, 2018, the Chairperson of the Board received a retainer fee at the annual rate of \$325,000 and each Independent Trustee (other than the Chairperson) received, in the aggregate, a retainer fee at the annual rate of \$155,000, the chairperson of the Contract Review Committee and Audit Committee each received an additional retainer fee at the annual rate of \$17,500 and the chairperson of the Governance Committee received an additional retainer fee at the annual rate of \$10,000. All other Trustee fees remained unchanged.

Effective January 1, 2019, the Chairperson of the Board will receive a retainer fee at the annual rate of \$360,000, each Independent Trustee (other than the Chairperson) will receive, in the aggregate, a retainer fee at the annual rate of \$190,000, and the chairperson of the Governance Committee will receive an additional retainer fee at the annual rate of \$15,000. All other Trustee fees will remain unchanged.

A deferred compensation plan (the "Plan") is available to the Trustees on a voluntary basis. Deferred amounts remain in the Fund until distributed in accordance with the provisions of the Plan. The value of a participating Trustee's deferral account is based on theoretical investments of deferred amounts, on the normal payment dates, in certain funds of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust as designated by the participating Trustees. Changes in the value of participants' deferral accounts are allocated *pro rata* among the funds in the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, and are normally reflected as Trustees' fees and expenses in the Statement of Operations. The portions of the accrued obligations allocated to the Fund under the Plan are reflected as Deferred Trustees' fees in the Statement of Assets and Liabilities.

An officer and employee of Loomis Sayles is also a Trustee of the Trust.

Notes to Financial Statements (continued)

November 30, 2018

g. Affiliated Ownership. As of November 30, 2018, Loomis Sayles Employees' Profit Sharing Retirement Plan ("Retirement Plan") held shares of the Fund representing 0.35% of the Fund's net assets.

Investment activities of affiliated shareholders could have material impacts on the Fund.

h. Reimbursement of Transfer Agent Fees and Expenses. Natixis Advisors has given a binding contractual undertaking to the Fund to reimburse any and all transfer agency expenses for the Funds' Class N shares. This undertaking is in effect through March 31, 2019 and is not subject to recovery under the expense limitation agreement described above.

For the year ended November 30, 2018, Natixis Advisors reimbursed the Fund \$247 for transfer agency expenses related to Class N shares.

6. Class-Specific Transfer Agent Fees and Expenses. Transfer agent fees and expenses attributable to Class A, Class C and Class Y are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of those classes. Transfer agent fees and expenses attributable to Class N are allocated to Class N.

For the year ended November 30, 2018, the Fund incurred the following class-specific transfer agent fees and expenses (including sub-transfer agent fees, where applicable):

<u>Transfer Agent Fees and Expenses</u>			
<u>Class A</u>	<u>Class C</u>	<u>Class N</u>	<u>Class Y</u>
\$333,020	\$205,942	\$247	\$1,731,050

7. Line of Credit. Effective November 19, 2018, the Fund has entered into a syndicated, committed, secured line of credit with Sumitomo Mitsui Banking Corporation (the "Administrative Agent"), the Bank of Nova Scotia, Houston Branch and National Australia Bank Limited (each a "Lender" and together with the Administrative Agent "Lenders") under which it may borrow for investment or liquidity purposes. The commitment of the Lenders to make loans to the Fund shall not exceed \$500,000,000 at any one time. Under the terms of the agreement, the Lenders are entitled to a security interest in the assets of the Fund as collateral. Interest is charged to the Fund based upon the terms set forth in the agreement. In addition, a commitment fee of 0.400% per annum payable to the Administrative Agent for the account of each Lender is accrued by the Fund based on the unused portion of the line of credit. The Fund paid the Administrative Agent an upfront fee of \$500,000 and an administrative agent fee of \$25,000, for a total of \$525,000, which are being amortized over a period of 364 days and are reflected as miscellaneous expenses on the Statement of Operations. The unamortized balance is reflected as prepaid expenses on the Statement of Assets and Liabilities.

Notes to Financial Statements (continued)

November 30, 2018

Prior to November 19, 2018, the commitment of the Lenders to make loans to the Fund shall not exceed \$400,000,000 at any one time. The Fund paid the Administrative Agent an upfront fee of \$400,000 and an administrative agent fee of \$25,000, for a total of \$425,000, which are being amortized over a period of 364 days and are reflected as miscellaneous expenses on the Statement of Operations.

During the year ended November 30, 2018, the Fund had no borrowings under this agreement.

8. Concentration of Risk. The Fund is non-diversified, which means that it is not limited under the 1940 Act to a percentage of assets that it may invest in any one issuer. Because the Fund may invest in the securities of a limited number of issuers, an investment in the Fund may involve a higher degree of risk than would be present in a diversified portfolio.

The senior loans in which the Fund expects to invest will generally not be rated investment grade by the rating agencies. Economic downturns generally increase non-payment rates and a senior loan could lose a substantial part of its value prior to default. Senior loans are subject to credit risk, and secured loans may not be adequately collateralized. The interest rates of senior loans reset frequently, and thus senior loans are subject to interest rate risk. There may also be less public information available about senior loans as compared to other debt securities.

Senior loans are generally less liquid than many other debt securities. Transactions in senior loans may settle on a delayed basis, such that the Fund may not receive the proceeds from the sale of a loan for a substantial period of time (greater than seven days) after the sale. As a result, the proceeds related to the sale of senior loans may not be available to make additional investments or to meet the Fund's redemption obligations until substantial period (greater than seven days) after the sale of the loans.

9. Concentration of Ownership. From time to time, a Fund may have a concentration of one or more accounts constituting a significant percentage of shares outstanding. Investment activities by holders of such accounts could have material impacts on the Fund. As of November 30, 2018, based on management's evaluation of the shareholder account base, the Fund had accounts (including accounts owned by affiliates) representing controlling ownership of more than 5% of the Fund's total outstanding shares. The number of such accounts, based on accounts that represent more than 5% of an individual class of shares, and the aggregate percentage of net assets represented by such holdings were as follows:

<u>Number of 5% Account Holders</u>	<u>Percentage of Ownership</u>
1	7.04%(a)

Notes to Financial Statements (continued)

November 30, 2018

Omnibus shareholder accounts for which Natixis Advisors understands that the intermediary has discretion over the underlying shareholder accounts or investment models where a shareholder account may be invested for a non-discretionary customer are included in the table above. For other omnibus accounts, the Fund does not have information on the individual shareholder accounts underlying the omnibus accounts; therefore, there could be other 5% shareholders in addition to those disclosed in the table above.

(a) Certain Fund shareholders are invested in the Fund as a result of the Fund's inclusion in an investment portfolio model, utilized by certain third party intermediaries, developed by an affiliate of the Fund, AlphaSimplex Group (ASG). Without this model or as a result of changes in this model, these shareholder positions in the Fund may not exist or could change in a material amount. ASG has no involvement in the decisions to invest in the models provided.

10. Capital Shares. The Fund may issue an unlimited number of shares of beneficial interest, without par value. Transactions in capital shares were as follows:

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Natixis Funds Trust II and Shareholders of Loomis Sayles Senior Floating Rate and Fixed Income Fund:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Loomis Sayles Senior Floating Rate and Fixed Income Fund (one of the funds constituting Natixis Funds Trust II, referred to hereafter as the “Fund”) as of November 30, 2018, the related statement of operations for the year ended November 30, 2018, the statement of changes in net assets for each of the two years in the period ended November 30, 2018, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of November 30, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended November 30, 2018 and the financial highlights for the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of November 30, 2018 by correspondence with the custodian, and brokers; when replies
