Natixis Distribution, L.P. is a limited purpose broker-dealer and the distributor of various registered investment companies for which advisory services are provided by affiliates of Natixis Investment Managers.

# Letter from the President

Dear Shareholder:

US stock markets posted strong gains for the 12 months ended September 30, 2018, but volatility returned toward the end of the period. US bond markets declined slightly as rates rose. The Federal Open Market Committee (the Fed) raised the federal funds rate four times during the period, to the current level of 2.00%-2.25%, and concerns about the future path of interest rates began to surface.

US investments outpaced their international peers, and global growth became less synchronized as the year progressed. International stocks posted only modest gains and emerging market equities were slightly negative. Global bonds also finished in negative territory.

## **US economy strong, but volatility is picking up**

The pattern of steady growth continued, and the US remains in a full-employment economy. The unemployment rate ended the period at 3.7%, and inflation rose slightly. Equities enjoyed a boost from corporate tax cuts early in the calendar year, but a combination of factors including trade tariff discussions and geopolitical uncertainty prompted turbulence across global markets through the end of the period.

While the economic picture remains positive, the extraordinarily calm market environment that prevailed throughout 2017 may have run its course. We encourage you to work closely with your financial professional to keep your portfolio allocations aligned with your long-term goals and tolerance for risk.

## **Monitoring fund performance**

The enclosed report showcases your fund's performance for the 12 months ended September 30, 2018. For more current information, please visit our website, [im.natixis.com](http://im.natixis.com), where you'll find fund-specific information under the Products tab. You may also want to explore the Insights section to learn more about market trends and new investment ideas.

Sincerely,

David L. Giunta  
President

## Investment Goal

The Fund seeks high current income plus the opportunity for capital appreciation to produce a high total return.

---

## Market Conditions

Healthy economic indicators, including strong gross domestic product growth and low unemployment, characterized the 12 months ending September 30, 2018. Inflation was generally stable, trending close to the Federal Reserve's (Fed's) 2% target rate. Bolstered by these factors, the Fed met expectations and undertook a steady pace of rate increases. This contributed to US interest rates remaining well ahead of those of other developed economies, where monetary policies were more accommodative. Against this backdrop, ongoing US trade negotiations, particularly with China, and other geopolitical issues represented a developing risk.

US interest rates moved higher during the period, especially along the shorter end of the yield curve (a curve that shows the relationship among bond yields across the maturity spectrum). US Treasuries with maturities along the short end of the curve showed more modest losses than those with longer maturities, where declines were fairly steep.

Investment grade corporate bonds posted negative returns, though they outperformed Treasuries of similar duration (price sensitivity to interest rate changes). Spreads (the difference in yield between non-Treasury and Treasury securities of similar maturity) generally widened, and the sector's relatively longer duration weighed on returns as yields rose.

High yield corporate bonds posted positive returns, supported by investor demand for income and relatively shorter duration. Notably, gains in the CCC-rated tier of the market made it the top-performing quality tier by a significant margin.

Despite some upward movement in yields, several developed economy government bond markets remained at a disadvantage relative to the US from an income-generating perspective. The US dollar posted strong performance relative to other developed and emerging market currencies, particularly in the latter half of the period. US dollar strength eroded returns for emerging market debt investors.

## Performance Results

For the 12 months ended September 30, 2018, Class Y shares of the Loomis Sayles High Income Fund returned 1.68% at net asset value. The Fund underperformed its benchmark, the Bloomberg Barclays U.S. Corporate High-Yield Bond Index, which returned 3.05%.

## Explanation of Fund Performance

The Fund's allocation to emerging market credit acted as a constraint versus the benchmark. An allocation to non-US-dollar-denominated issues had the largest negative impact on relative performance, with holdings denominated in the Argentine peso and Mexican peso being the worst performers within the sector.

The Fund's allocation to convertible securities contributed positively to performance relative to the benchmark, with holdings of consumer non-cyclical names in particular bolstering return. In addition, allocations to equity and securitized markets both had a positive impact on relative return. Contributions within securitized markets were led by exposure to asset-backed securities and non-agency mortgage-backed securities.

## Outlook

Our key investment themes are centered on our outlook for steady growth and inflation conditions. While ongoing trade negotiations raise uncertainty about global growth and pose a risk to our outlook, indicators in the United States, including manufacturing activity, business and consumer sentiment, spending, and employment, remain positive for the US economy. This leads us to expect modest improvement in US GDP growth over the next year and relatively stable inflation. Treasury yields have been increasing, and we expect this trend to continue at a modest pace. For this reason, we think it is important to maintain less interest rate sensitivity in the portfolio.

Lower inventories and strong demand have pushed oil prices higher over the past year and raised expectations for higher inflation. We expect inflation to increase at a steady pace that keeps the Fed on its gradual track toward normalizing monetary policy.

We have shifted to a more defensive profile within the portfolio and are holding higher reserves in the form of cash and short-maturity US Treasury debt to maintain flexibility. However, we have maintained our exposure to investment grade and high yield corporate bonds. We believe the environment for risk assets should remain favorable and there is further upside in the credit sectors given the outlook for continued profit growth, earnings growth and the low probability of defaults or economic recession. As we remain in an extended late expansion phase of the credit cycle,<sup>1</sup> we continue to be highly selective with a keen focus on undervalued issues that have solid fundamentals.

We continue to expect low default rates and low default losses from the high yield market over the next 12 to 18 months. Leverage is elevated, but interest coverage ratios (the ability to pay interest on outstanding debt) remain strong. At present, we expect technical factors to support high yield as coupon income is reinvested. We are concerned about the potential effects of a trade war on risk appetite. However, the high yield sector is typically less sensitive to trade issues; it tends to have fewer multinational and more smaller-capitalization companies than the investment grade sector.

We believe convertible bonds are still attractive in this late-cycle environment. We are very price sensitive in this sector, but believe it remains supported by strong corporate earnings and a positive US economic backdrop.

# LOOMIS SAYLES HIGH INCOME FUND

We believe the portfolio is well-positioned, with broad diversification, a lower risk profile and substantial liquidity built into its holdings. We are closely monitoring risk factors that may introduce market volatility and intend to use any dislocation as a buying opportunity in areas with supportive fundamentals.

Effective November 1, 2018, the Fund's principal investment strategies will be amended and the Fund's fiscal year-end will change from September 30 to December 31. The Fund will no longer invest in non-US dollar denominated bonds or equity securities, among other changes. These changes are intended to eliminate the volatility associated with currency and equity allocations and address the variability of the Fund's monthly ordinary income distributions. Additionally, Brian Kennedy and Todd Vandam will be added to the team to serve alongside Elaine Stokes and Matt Eagan, who have co-managed the Fund for over a decade.

<sup>1</sup> A credit cycle is a cyclical pattern that follows credit availability and corporate health.

**Performance data shown represents past performance and is no guarantee of, and not necessarily indicative of, future results. Total return and value will vary, and you may have a gain or loss when shares are sold. Current performance may be lower or higher than quoted. For most recent month-end performance, visit [im.natixis.com](http://im.natixis.com).** Performance for other share classes will be greater or less than shown based on differences in fees and sales charges. You may not invest directly in an index. Performance for periods less than one year is cumulative, not annualized. Returns reflect changes in share price and reinvestment of dividends and capital gains, if any. The table(s) do not reflect taxes shareholders might owe on any fund distributions or when they redeem their shares.

- Class C shares performance assumes a 1% CDSC applied when you sell shares within one year of purchase.
- The Bloomberg Barclays U.S. Corporate High-Yield Bond Index measures the market of USD-denominated, non-investment grade, fixed-rate, taxable corporate bonds. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB /BB or below, excluding emerging market debt. The Bloomberg Barclays U.S. Corporate High-Yield Bond Index was created in 1986, with history backfilled to July 1, 1983, and rolls up into the Bloomberg Barclays U.S. Universal and Global High-Yield Indices.
- Fund performance has been increased by fee waivers and/or expense reimbursements, if any, without which performance would have been lower.
- Expense ratios are as shown in the Fund's prospectus in effect as of the date of this report. The expense ratios for the current reporting period can be found in the Financial Highlights section of this report under Ratios to Average Net Assets. Net expenses reflect contractual expense caps set to expire on 1/31/19. When a Fund's expenses are below the cap, gross and net expense ratios will be the same. See Note 6 of the Notes to Financial Statements for more information about the Fund's expense caps.

## Market Conditions

Healthy economic indicators, including strong gross domestic product growth, low unemployment and a favorable inflation rate, characterized the 12 months ending September 30, 2018. Bolstered by these factors, the Federal Reserve (Fed) met expectations and undertook a steady pace of rate increases. This contributed to US interest rates remaining well ahead of those of other developed economies, where monetary policies were more accommodative. Against this backdrop, ongoing US trade negotiations, particularly with China, and other geopolitical issues represented a developing risk.

US interest rates moved higher during the period, especially along the shorter end of the yield curve (a curve that shows the relationship among bond yields across the maturity spectrum). US Treasuries with maturities along the short end of the curve showed more modest losses than those with longer maturities, where declines were fairly steep.

Investment grade corporate bonds posted negative returns, though they outperformed Treasuries of similar duration (price sensitivity to interest rate changes). Spreads (the difference in yield between non-Treasuries and Treasury securities of similar maturity) generally widened, and the sector's relatively longer duration weighed on returns as yields rose.

Securitized assets outperformed duration-matched Treasuries, though the rise in the short end of the US yield curve limited total returns. Within the sector, the best performers were commercial mortgage-backed securities (CMBS) and residential mortgage-backed securities (RMBS), followed by asset-backed securities (ABS).

## Performance Results

For the 12 months ended September 30, 2018, Class Y shares of the Loomis Sayles Intermediate Duration Bond Fund returned -0.60% at net asset value. The Fund held up better than its benchmark, the Bloomberg Barclays U.S. Intermediate Government/Credit Bond Index, which returned -0.96%.

## Explanation of Fund Performance

The Fund's positioning was tilted toward risk assets during the period, as securities with additional compensation above risk-free rates fared well. The largest contributors to performance included an underweight to US Treasuries, as well as exposures to corporate

bonds and securitized assets such as ABS and CMBS. Within the corporate bond sector, the Fund benefited from exposures to the banking, consumer non-cyclical and technology industries.

Exposures that detracted from performance included an underweight to the government-related segment, a relative underweight in the energy industry and adverse security selection within consumer cyclicals. As a note — roughly one-third of the impact of Treasuries came from futures positions, with the remaining impact coming from cash securities.

## Outlook

We believe that the Fed will tighten monetary conditions in a gradual and measured way as aggregate demand remains healthy, with another hike likely coming in December 2018.

Corporate fundamentals continue to indicate the United States is in the late expansion phase of the credit cycle,<sup>1</sup> with slowing margin growth, increased mergers and acquisitions and rising leverage. Our view is that the cycle will continue to evolve slowly. Asset classes like corporate credit are supported by US tax reform and fiscal stimulus from the Trump administration. Corporate credit remains in demand due to a need for yield, fundamentals like improving corporate earnings, and technical factors such as lower bond supply. We continue to favor corporate credit over risk-free assets. We believe the primary risks to the credit markets include the pace of global growth, the timing of Fed tightening, increasing concerns about a protracted trade war and a significant uptick in inflation.

We remain underweight government bonds, given low yields, and continue to favor sectors offering higher yield potential than Treasuries.

We continue to be modestly overweight credit. We are focused on security selection opportunities, buying new issues with concessions and secondary bonds that can potentially offer favorable risk/return profiles. We believe valuations in CMBS are fair. We remain overweight to the sector, particularly senior parts of the capital stack.

We think valuations in mortgage-backed securities (MBS) have improved and are becoming more interesting. We are focused on securities with limited prepayment risk. The high-quality ABS sector remains attractive relative to government bonds. Specifically, we believe auto loans and credit card receivables remain attractive.

We have been maintaining a higher yield and exposure to more credit-sensitive sectors relative to the benchmark. We continue to monitor our portfolio and diversify our holdings with an eye toward minimizing undue exposure to macro and/or issuer events. We believe high yield issuers will continue to experience low default rates, and we are maintaining holdings in selected names that appear to offer value.

<sup>1</sup> A credit cycle is a cyclical pattern that follows credit availability and corporate health.

## Market Conditions

Healthy economic indicators, including strong gross domestic product growth, low unemployment and a favorable inflation rate, characterized the 12 months ending September 30, 2018. Bolstered by these factors, the Federal Reserve (Fed) met expectations and undertook a steady pace of rate increases. This contributed to US interest rates remaining well ahead of those of other developed economies, where monetary policies were more accommodative. Against this backdrop, ongoing US trade negotiations, particularly with China, and other geopolitical issues represented a developing risk.

US interest rates moved higher during the period, especially along the shorter end of the yield curve (a curve that shows the relationship among bond yields across the maturity spectrum). Treasuries with maturities along the short end of the curve showed more modest losses than those with longer maturities, where declines were fairly steep.

Securitized assets outperformed duration-matched Treasuries (duration refers to a security's price sensitivity to interest rate changes), though the rise in the short end of the US yield curve limited total returns. Within the sector, the best performers were commercial mortgage-backed securities (CMBS) and residential mortgage-backed securities (RMBS), followed by asset-backed securities (ABS).

## Performance Results

For the 12 months ended September 30, 2018, Class Y shares of the Loomis Sayles Limited Term Government and Agency Fund returned 0.09% at net asset value. The Fund held up better than its benchmark, the Bloomberg Barclays U.S. 1-5 Year Government Bond Index, which returned -0.61%.

## Explanation of Fund Performance

Security selection and yield curve positioning were the main drivers of the Fund's outperformance relative to the benchmark for the 12-month period. A position in agency collateralized mortgage obligations (CMOs) aided relative performance, as these securities strongly outperformed Treasuries of comparable duration over the period. Security selection within agency pass-through mortgage-backed securities (MBS) and agency CMBS also contributed positively to performance.

Among detractors, the Fund’s holdings in agency debentures (bonds issued by federal agencies or government-sponsored enterprises to finance their activities) had a slight negative impact on relative performance. Security selection within US Treasuries also weighed slightly on return.

### Outlook

Agency MBS spreads (the difference in yield between agency MBS and Treasuries of similar maturity) are narrow relative to history. Mortgages issued in recent years are relatively high quality compared with those issued in prior years. Therefore, we favor an underweight to recently issued 30-year MBS and prefer sectors less likely to face refinancing and extension risk, such as low loan balance mortgages and home equity conversion mortgages.

Within the commercial real estate sector, top-tier assets and markets have generally recovered and are at or above prior peak levels. We believe investment grade CMBS remain attractive.

We believe ABS currently offer an attractive combination of strong credit quality and enhanced yield. We favor higher-yielding securities and bonds of less frequent issuers. Our analysis indicates the credit risk of these securities is inefficiently priced and they offer potentially attractive opportunities for additional yield.

A description of the Natixis Funds' proxy voting policies and procedures is available without charge, upon request, by calling Natixis Funds at 800-225-5478; on the Natixis Funds' website at [im.natixis.com](http://im.natixis.com); and on the Securities and Exchange Commission's ("SEC's") website at [www.sec.gov](http://www.sec.gov). Information regarding how the funds voted proxies relating to portfolio securities the most recent 12-month period ended June 30 is available from the Natixis Funds' website and the SEC's website.

## QUARTERLY PORTFOLIO SCHEDULES

The Natixis Funds file complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q are available on the SEC's website at [www.sec.gov](http://www.sec.gov) and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

# UNDERSTANDING FUND EXPENSES

As a mutual fund shareholder, you incur different costs: transaction costs, including sales charges (loads) on purchases and contingent deferred sales charges on redemptions, and ongoing costs, including management fees, distribution and/or service fees (12b-1 fees), and other fund expenses. Certain exemptions may apply. These costs are described in more detail in the Funds' prospectuses. The following examples are intended to help you understand the ongoing costs of investing in the Funds and help you compare these with the ongoing costs of investing in other mutual funds.

The first line in the table of each class of Fund shares shows the actual account values and actual Fund expenses you would have paid on a \$1,000 investment in the Fund from April 1, 2018 through September 30, 2018. To estimate the expenses you paid over the period, simply divide your account value by \$1,000 (for example \$8,600 account value divided by \$1,000 = 8.6) and multiply the result by the number in the Expenses Paid During Period column as shown below for your class.

The second line in the table of each class of Fund shares provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid on your investment for the period. You may use this information to compare the ongoing costs of investing in the Fund to other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown reflect ongoing costs only, and do not include any transaction costs, such as sales charges. Therefore, the second line in the table of each fund is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. If transaction costs were included, total costs would be higher.

<b>LOOMIS SAYLES HIGH INCOME FUND</b>	<b>BEGINNING ACCOUNT VALUE 4/1/2018</b>	<b>ENDING ACCOUNT VALUE 9/30/2018</b>	<b>EXPENSES PAID DURING PERIOD* 4/1/2018 – 9/30/2018</b>
<b>Class A</b>			
Actual	\$1,000.00	\$1,016.90	\$5.31
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.80	\$5.32

\* Expenses are equal to the Fund’s annualized expense ratio (after waiver/reimbursement): 0.80%, 1.55%, 0.46% and 0.55% for Class A, C, N and Y, respectively, multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year (183), divided by 365 (to reflect the half-year period).

## BOARD APPROVAL OF THE EXISTING ADVISORY AGREEMENTS

The Board of Trustees of the Trusts (the “Board”), including the Independent Trustees, considers matters bearing on each Fund’s advisory agreement (collectively, the “Agreements”) at most of its meetings throughout the year. Each year, usually in the spring, the Contract Review Committee of the Board meets to review the Agreements to determine whether to recommend that the full Board approve the continuation of the Agreements, typically for an additional one-year period. After the Contract Review Committee has made its recommendation, the full Board, including the Independent Trustees, determines whether to approve the continuation of the Agreements.

In connection with these meetings, the Trustees receive materials that the Funds’ investment adviser (the “Adviser”) believes to be reasonably necessary for the Trustees to evaluate the Agreements. These materials generally include, among other items, (i) information on the investment performance of the Funds and the performance of peer groups of funds and the Funds’ performance benchmarks, (ii) information on the Funds’ advisory fees and other expenses, including information comparing the Funds’ advisory fees to the fees charged to institutional accounts with similar strategies managed by the Adviser, if any, and to those of peer groups of funds and information about any applicable expense caps and/or fee “breakpoints,” (iii) sales and redemption data in respect of the Funds, (iv) information about the profitability of the Agreements to the Adviser and (v) information obtained through the completion by the Adviser of a questionnaire distributed on behalf of the Trustees. The Board, including the Independent Trustees, also considers other matters such as (i) the Adviser’s financial results and financial condition, (ii) each Fund’s investment objective and strategies and the size, education and experience of the Adviser’s investment staff and its use of technology, external research and trading cost measurement tools, (iii) arrangements in respect of the distribution of the Funds’ shares and the related costs, (iv) the allocation of the Funds’ brokerage, if any, including, to the extent applicable, the use of “soft” commission dollars to pay for research and other similar services, (v) the resources devoted to, and the record of compliance with, the Funds’ investment policies and restrictions, policies on personal securities transactions and other compliance policies, (vi) each Adviser’s policies and procedures relating to, among other things, compliance, trading and best execution, proxy voting and valuation, (vii) information about amounts invested by the Funds’ portfolio managers in the Funds or in similar accounts that they manage and (viii) the general economic outlook with particular emphasis on the mutual fund industry. Throughout the process, the Trustees are afforded the opportunity to ask questions of and request additional materials from the Adviser.

In addition to the materials requested by the Trustees in connection with their annual consideration of the continuation of the Agreements, the Trustees receive materials in advance of each regular quarterly meeting of the Board that provide detailed information about the Funds’ investment performance and the fees charged to the Funds for advisory and other services. This information generally includes, among other things, an internal performance rating for each Fund based on agreed-upon criteria, graphs showing each Fund’s performance and expense differentials against each Fund’s peer group/category of

funds, performance ratings provided by a third-party, total return information for various periods, and third-party performance rankings for various periods comparing a Fund against similarly categorized funds. The portfolio management team for each Fund or other representatives of the Adviser make periodic presentations to the Contract Review Committee and/or the full Board, and Funds identified as presenting possible performance concerns may be subject to more frequent Board or Committee presentations and reviews. In addition, each quarter the Trustees are provided with detailed statistical information about each Fund's portfolio. The Trustees also receive periodic updates between meetings.

The Board most recently approved the continuation of the Agreements for a one-year period at its meeting held in June 2018. In considering whether to approve the continuation of the Agreements, the Board, including the Independent Trustees, did not identify any single factor as determinative. Individual Trustees may have evaluated the information presented differently from one another, giving different weights to various factors. Matters considered by the Trustees, including the Independent Trustees, in connection with their approval of the Agreements included, but were not limited to, the factors listed below.

*The nature, extent and quality of the services provided to the Funds under the Agreements.* The Trustees considered the nature, extent and quality of the services provided by the Adviser and its affiliates to the Funds and the resources dedicated to the Funds by the Adviser and its affiliates.

The Trustees considered not only the advisory services provided by the Adviser to the Funds, but also the monitoring and oversight services provided by Natixis Advisors, L.P. ("Natixis Advisors"). They also considered the administrative and shareholder services provided by Natixis Advisors and its affiliates to the Funds.

For each Fund, the Trustees also considered the benefits to shareholders of investing in a mutual fund that is part of a family of funds that offers shareholders the right to exchange shares of one type of fund for shares of another type of fund, and provides a variety of fund and shareholder services.

After reviewing these and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the nature, extent and quality of services provided supported the renewal of the Agreements.

*Investment performance of the Funds and the Adviser.* As noted above, the Trustees received information about the performance of the Funds over various time periods, including information that compared the performance of the Funds to the performance of peer groups and categories of funds and the Funds' respective performance benchmarks. In addition, the Trustees reviewed data prepared by an independent third party that analyzed the performance of the Funds using a variety of performance metrics, including metrics that measured the performance of the Funds on a risk adjusted basis.

The Board noted that through December 31, 2017, each Fund's one-, three- and five-year performance, stated as percentile rankings within categories selected by the independent third-party data provider was as follows (where the best performance would be in the first percentile of its category):

	<u>One-Year</u>	<u>Three-Year</u>	<u>Five-Year</u>
Loomis Sayles High Income Fund	29%	60%	50%
Loomis Sayles Intermediate Duration Bond Fund	92%	79%	79%
Loomis Sayles Limited Term Government and Agency Fund	15%	20%	17%

In the case of each Fund that had performance that lagged that of a relevant category group median as determined by the independent third-party for certain (although not necessarily all) periods, the Board concluded that other factors relevant to performance supported renewal of the Agreements, including: (1) that the underperformance was attributable, to a significant extent, to investment decisions (such as security selection or sector allocation) by the Adviser that were reasonable and consistent with the Fund's investment objective and policies; and (2) that the Fund's more recent performance, although lagging in certain periods, had shown improvement relative to its category; and (3) the Fund had outperformed its relevant performance benchmark.

The Trustees also considered the Adviser's performance and reputation generally, the performance of the fund family generally, and the historical responsiveness of the Adviser to Trustee concerns about performance and the willingness of the Adviser to take steps intended to improve performance.

After reviewing these and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the performance of the Funds and the Adviser and/or other relevant factors supported the renewal of the Agreements.

*The costs of the services to be provided and profits to be realized by the Adviser and its affiliates from their respective relationships with the Funds.* The Trustees considered the fees charged to the Funds for advisory and administrative services as well as the total expense levels of the Funds. This information included comparisons (provided both by management and by an independent third party) of the Funds' advisory fees and total expense levels to those of their peer groups and information about the advisory fees charged by the Adviser to comparable accounts (such as institutional separate accounts), as well as information about differences in such fees and the reasons for any such differences. In considering the fees charged to comparable accounts, the Trustees considered, among other things, management's representations about the differences between managing mutual funds as compared to other types of accounts, including the additional resources required to effectively manage mutual fund assets and the greater regulatory costs associated with the management of such assets. In evaluating each Fund's advisory fee, the Trustees also took into account the demands, complexity and quality of the investment management of such Fund, as well as the need for the Adviser to offer competitive compensation and the potential need to expend additional resources to the extent the Fund grows in size. The Trustees considered that over the past several years, management had made recommendations regarding reductions in advisory fee rates, implementation of advisory

fee breakpoints and the institution of advisory fee waivers and expense caps for various funds in the fund family. They noted that all of the Funds have expense caps in place, and they considered the amounts waived or reimbursed by the Adviser for certain Funds under their caps. The Trustees considered that the current expenses of the Loomis Sayles Limited Term Government and Agency Fund are at its cap. The Trustees noted that the total advisory fee rates for the Funds were at or below the medians of their respective peer group of funds.

The Trustees also considered the compensation directly or indirectly received by the Adviser and its affiliates from their relationships with the Funds. The Trustees reviewed information provided by management as to the profitability of the Adviser's and its affiliates' relationships with the Funds, and information about the allocation of expenses used to calculate profitability. They also reviewed information provided by management about the effect of distribution costs and changes in asset levels on Adviser profitability, including information regarding resources spent on distribution activities. When reviewing profitability, the Trustees also considered information about court cases in which adviser compensation or profitability were issues, the performance of the Funds, the expense levels of the Funds, whether the Adviser had implemented breakpoints and/or expense caps with respect to such Funds and the overall profit margin of Natixis Investment Managers compared to that of certain other investment managers for which such data was available.

After reviewing these and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the advisory fee charged to each of the Funds was fair and reasonable, and that the costs of these services generally and the related profitability of the Adviser and its affiliates in respect of their relationships with the Funds supported the renewal of the Agreements.

*Economies of Scale.* The Trustees considered the existence of any economies of scale in the provision of services by the Adviser and whether those economies are shared with the Funds through breakpoints in their investment advisory fees or other means, such as expense caps. The Trustees also discussed with management the factors considered with respect to the implementation of breakpoints in investment advisory fees or expense caps for certain funds. Management explained that a number of factors are taken into account in considering the possible implementation of breakpoints or an expense cap for a fund, including, among other things, factors such as a fund's assets, the projected growth of a fund, projected profitability and a fund's fees and performance. With respect to economies of scale, the Trustees noted that the Loomis Sayles Limited Term Government and Agency Fund had breakpoints in its advisory fee and that all of the Funds were subject to an expense cap. The Trustees also considered management's proposal to reduce the Loomis Sayles High Income Fund's expense cap last year. In considering these issues, the Trustees also took note of the costs of the services provided (both on an absolute and on a relative basis) and the profitability to the Adviser and its affiliates of their relationships with the Funds, as discussed above.

After reviewing these and related factors, the Trustees concluded, within the context of their overall conclusions regarding each of the Agreements, that the extent to which economies of scale were shared with the Funds supported the renewal of the Agreements.

The Trustees also considered other factors, which included but were not limited to the following:

- The effect of recent market and economic events on the performance, asset levels and expense ratios of each Fund.
- Whether each Fund has operated in accordance with its investment objective and the Fund's record of compliance with its investment restrictions, and the compliance programs of the Funds and the Adviser. They also considered the compliance-related resources the Adviser and its affiliates were providing to the Funds.
- So-called "fallout benefits" to the Adviser, such as the engagement of affiliates of the Adviser to provide distribution and administrative services to the Funds, and the benefits of research made available to the Adviser by reason of brokerage commissions (if any) generated by the Funds' securities transactions. The Trustees also considered the benefits to the parent company of Natixis Advisors from the retention of the Adviser. The Trustees considered the possible conflicts of interest associated with these fallout and other benefits, and the reporting, disclosure and other processes in place to disclose and monitor such possible conflicts of interest.
- The Trustees' review and discussion of the Funds' advisory arrangements in prior years, and management's record of responding to Trustee concerns raised during the year and in prior years.

Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent counsel, the Trustees, including the Independent Trustees, concluded that each of the existing Agreements, should be continued through June 30, 2019.

	Total Investments — 98.3% (Identified Cost \$173,649,034)	167,518,646
	Other assets less liabilities — 1.7%	<u>2,940,852</u>
	Net Assets — 100.0%	<u>\$ 170,459,498</u>

(†) Principal Amount stated in U.S. dollars unless otherwise noted.

(‡) See Note 2 of Notes to Financial Statements.

(††) Amount shown represents units. One unit represents a principal amount of 100.

(a) Level 3 security. Value has been determined using significant unobservable inputs. See Note 3 of Notes to Financial Statements.

(b) Variable rate security. The interest rate adjusts periodically based on; (i) changes in current interest rates and/or prepayments on underlying pools of assets, if applicable, (ii) reference to a base lending rate plus or minus a margin, and/or (iii) reference to a base lending rate adjusted by a multiplier and/or subject to certain floors or caps. Rate as of September 30, 2018 is disclosed.

## Portfolio of Investments – as of September 30, 2018

### Loomis Sayles High Income Fund – (continued)

- (c) Fair valued by the Fund's adviser. At September 30, 2018, the value of these securities amounted to \$1,334,593 or 0.8% of net assets. See Note 2 of Notes to Financial Statements.
- (d) Variable rate security. Rate as of September 30, 2018 is disclosed.
- (e) Security (or a portion thereof) has been designated to cover the Fund's obligations under open derivative contracts.
- (f) Payment-in-kind security for which the issuer has the option at each interest payment date of making interest payments in cash or additional principal. For the period ended September 30, 2018, interest payments were made in cash.
- (g) The issuer is in default with respect to interest and/or principal payments. Income is not being accrued.
- (h) Illiquid security. (Unaudited)
- (i) Securities classified as fair valued pursuant to the Fund's pricing policies and procedures. At September 30, 2018, the value of these securities amounted to \$553,512 or 0.3% of net assets. See Note 2 of Notes to Financial Statements.
- (j) Position is unsettled. Contract rate was not determined at September 30, 2018 and does not take effect until settlement date. Maturity date is not finalized until settlement date.
- (k) Securities subject to restriction on resale. At September 30, 2018, the restricted securities held by the Fund are as follows:

	Acquisition Date	Acquisition Cost	Value	% of Net Assets
Aergen LLC	March 06, 2017	\$ 841,500	\$ 8	Less than 0.1%
Dex Media, Inc.	August 12, 2016	20,040	43,187	Less than 0.1%
ECAF I Blocker Ltd.	December 20, 2016	1,000,000	896,875	0.5%
Paragon Offshore Ltd., Litigation Units, Class A	July 18, 2017	25,887	2,751	Less than 0.1%
Paragon Offshore Ltd., Litigation Units, Class B	July 18, 2017	517,958	197,857	0.1%

- (l) Non-income producing security.

144A All or a portion of these securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2018, the value of Rule 144A holdings amounted to \$69,804,211 or 41.0% of net assets.

- (†) See Note 2 of Notes to Financial Statements.
- (a) Security (or a portion thereof) has been designated to cover the Fund's obligations under open derivative contracts.
- (b) Level 3 security. Value has been determined using significant unobservable inputs. See Note 3 of Notes to Financial Statements.
- (c) Variable rate security. The interest rate adjusts periodically based on; (i) changes in current interest rates and/or prepayments on underlying pools of assets, if applicable, (ii) reference to a base lending rate plus or minus a margin, and/or (iii) reference to a base lending rate adjusted by a multiplier and/or subject to certain floors or caps. Rate as of September 30, 2018 is disclosed.
- (d) Fair valued by the Fund's adviser. At September 30, 2018, the value of this security amounted to \$14,830 or less than 0.1% of net assets. See Note 2 of Notes to Financial Statements.
- (e) Variable rate security. Rate as of September 30, 2018 is disclosed.
- (f) The Fund's investment in mortgage related securities of Federal Home Loan Mortgage Corporation and Government National Mortgage Association are interests in separate pools of mortgages. All separate investments in securities of each issuer which have the same coupon rate have been aggregated for the purpose of presentation in the Portfolio of Investments.

## Portfolio of Investments – as of September 30, 2018

### Loomis Sayles Intermediate Duration Bond Fund – (continued)

144A	All or a portion of these securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2018, the value of Rule 144A holdings amounted to \$51,027,087 or 30.5% of net assets.
ABS	Asset-Backed Securities

## Portfolio of Investments – as of September 30, 2018

### Loomis Sayles Limited Term Government and Agency Fund – (continued)

- (t) See Note 2 of Notes to Financial Statements.
- (a) Variable rate security. The interest rate adjusts periodically based on; (i) changes in current interest rates and/or prepayments on underlying pools of assets, if applicable, (ii) reference to a base lending rate plus or minus a margin, and/or (iii) reference to a base lending rate adjusted by a multiplier and/or subject to certain floors or caps. Rate as of September 30, 2018 is disclosed.
- (b) Variable rate security. Rate as of September 30, 2018 is disclosed.
- (c) Level 3 security. Value has been determined using significant unobservable inputs. See Note 3 of Notes to Financial Statements.
- (d) Fair valued by the Fund's adviser. At September 30, 2018, the value of these securities amounted to \$191,318 or less than 0.1% of net assets. See Note 2 of Notes to Financial Statements.
- (e) Security represents right to receive monthly interest payments on an underlying pool of mortgages. Principal shown is the outstanding par amount of the pool held as of the end of the period.
- (f) The Fund's investment in mortgage related securities of Federal Home Loan Mortgage Corporation, Federal National Mortgage Association and Government National Mortgage Association are interests in separate pools of mortgages. All separate investments in securities of each issuer which have the same coupon rate have been aggregated for the purpose of presentation in the Portfolio of Investments.
- (g) Interest rate represents discount rate at time of purchase; not a coupon rate.
- (h) The Fund's investment in U.S. Government/Agency securities is comprised of various lots with differing discount rates. These separate investments, which have the same maturity date, have been aggregated for the purpose of presentation in the Portfolio of Investments.

144A All or a portion of these securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2018, the value of Rule 144A holdings amounted to \$22,886,960 or 3.2% of net assets.

# Notes to Financial Statements

September 30, 2018

**1. Organization.** Loomis Sayles Funds I and Loomis Sayles Funds II (the “Trusts” and each a “Trust”) are each organized as a Massachusetts business trust. Each Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. Each Declaration of Trust permits the Board of Trustees to authorize the issuance of an unlimited number of shares of the Trust in multiple series. The financial statements for certain funds of the Trusts are presented in separate reports. The following funds (individually, a “Fund” and collectively, the “Funds”) are included in this report:

## Loomis Sayles Funds I:

Loomis Sayles Intermediate Duration Bond Fund (the “Intermediate Duration Bond Fund”)

## Loomis Sayles Funds II:

Loomis Sayles High Income Fund (the “High Income Fund”)

Loomis Sayles Limited Term Government and Agency Fund (the “Limited Term Government and Agency Fund”)

Each Fund is a diversified investment company.

The Funds each offer Class A, Class C and Class Y shares. In addition, High Income Fund and Limited Term Government and Agency Fund began offering Class N shares effective November 30, 2016 and February 1, 2017, respectively.

Class A shares of Intermediate Duration Bond Fund and High Income Fund are sold with a maximum front-end sales charge of 4.25%. Class A shares of Limited Term Government and Agency Fund are sold with a maximum front-end sales charge of 2.25%. Class C shares do not pay a front-end sales charge, pay higher Rule 12b-1 fees than Class A shares for 10 years (at which point they automatically convert to Class A shares) and may be subject to a contingent deferred sales charge (“CDSC”) of 1.00% if those shares are redeemed within one year of acquisition, except for reinvested distributions. Class N and Class Y shares do not pay a front-end sales charge, a CDSC or Rule 12b-1 fees. Class N shares are offered with an initial minimum investment of \$1,000,000. Class Y shares are offered with an initial minimum investment of \$100,000. Certain categories of investors are exempted from the minimum investment amounts for Class N and Class Y as outlined in the relevant Funds’ prospectus.

Most expenses can be directly attributed to a Fund. Expenses which cannot be directly attributed to a Fund are generally apportioned based on the relative net assets of each of the funds in Natixis Funds Trust I, Natixis Funds Trust II, Natixis Funds Trust IV and Gateway Trust (“Natixis Funds Trusts”), Loomis Sayles Funds I and Loomis Sayles Funds II (“Loomis Sayles Funds Trusts”), and Natixis ETF Trust. Expenses of a Fund are borne *pro rata* by the holders of each class of shares, except that each class bears expenses unique to that class (such as the Rule 12b-1 fees applicable to Class A and Class C) and transfer agent fees for High Income Fund and Limited Term Government and Agency Fund are borne collectively for Class A, Class C and Class Y, and

# Notes to Financial Statements (continued)

September 30, 2018

individually for Class N. In addition, each class votes as a class only with respect to its own Rule 12b-1 Plan. Shares of each class would receive their *pro rata* share of the net assets of a Fund if the Fund were liquidated. The Trustees approve separate distributions from net investment income on each class of shares.

**2. Significant Accounting Policies.** The following is a summary of significant accounting policies consistently followed by each Fund in the preparation of its financial statements. The Funds' financial statements follow the accounting and reporting guidelines provided for investment companies and are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. Management has evaluated the events and transactions subsequent to year-end through the date the financial statements were issued and has determined that there were no material events that would require disclosure in the Funds' financial statements.

**a. Valuation.** Fund securities and other investments are valued at market value based on market quotations obtained or determined by independent pricing services recommended by the adviser and approved by the Board of Trustees. Fund securities and other investments for which market quotations are not readily available are valued at fair value as determined in good faith by the adviser pursuant to procedures approved by the Board of Trustees, as described below. Market value is determined as follows:

Debt securities and unlisted preferred equity securities are valued based on evaluated bids furnished to the Fund by an independent pricing service or bid prices obtained from broker-dealers. Senior loans are valued at bid prices supplied by an independent pricing service, if available. Listed equity securities (including shares of closed-end investment companies and exchange-traded funds) are valued at the last sale price quoted on the exchange where they are traded most extensively or, if there is no reported sale during the day, the closing bid quotation as reported by an independent pricing service. Securities traded on the NASDAQ Global Select Market, NASDAQ Global Market and NASDAQ Capital Market are valued at the NASDAQ Official Closing Price ("NOCP"), or if lacking an NOCP, at the most recent bid quotations on the applicable NASDAQ Market. Unlisted equity securities (except unlisted preferred equity securities) are valued at the last sale price quoted in the market where they are traded most extensively or, if there is no reported sale during the day, the closing bid quotation as reported by an independent pricing service. If there is no last sale price or closing bid quotation available, unlisted equity securities will be valued using evaluated bids furnished by an independent pricing service, if available. In some foreign markets, an official close price and a last sale price may be available from the foreign exchange or market. In those cases, the official close price is used. Broker-dealer bid prices may

# Notes to Financial Statements (continued)

September 30, 2018

be used to value debt and unlisted equity securities and senior loans where an independent pricing service is unable to price a security or where an independent pricing service does not provide a reliable price for the security. Forward foreign currency contracts are valued utilizing interpolated rates determined based on information provided by an independent pricing service. Futures contracts are valued at the most recent settlement price on the exchange on which the adviser believes that, over time, they are traded most extensively. Centrally cleared credit default swap agreements are valued at settlement prices of the clearing house on which the contracts were traded or prices obtained from broker-dealers. Bilateral credit default swaps are valued based on mid prices (between the bid price and the ask price) supplied by an independent pricing service.

Fund securities and other investments for which market quotations are not readily available are valued at fair value as determined in good faith by the adviser pursuant to procedures approved by the Board of Trustees. The Funds may also value securities and other investments at fair value in other circumstances such as when extraordinary events occur after the close of a foreign market but prior to the close of the New York Stock Exchange. This may include situations relating to a single issuer (such as a declaration of bankruptcy or a delisting of the issuer's security from the primary market on which it has traded) as well as events affecting the securities markets in general (such as market disruptions or closings and significant fluctuations in U.S. and/or foreign markets). When fair valuing its securities or other investments, the Funds may, among other things, use modeling tools or other processes that may take into account factors such as securities or other market activity and/or significant events that occur after the close of the foreign market and before the time the Fund's net asset value ("NAV") is calculated. Fair value pricing may require subjective determinations about the value of a security, and fair values used to determine a Fund's NAV may differ from quoted or published prices, or from prices that are used by others, for the same securities. In addition, the use of fair value pricing may not always result in adjustments to the prices of securities held by a Fund.

Illiquid securities for which market quotations are readily available and have been evaluated by the adviser are considered and classified as fair valued securities pursuant to the Funds' pricing policies and procedures.

# Notes to Financial Statements (continued)

September 30, 2018

As of September 30, 2018, securities held by the Funds were fair valued as follows:

<u>Fund</u>	<u>Securities classified as fair valued</u>	<u>Percentage of Net Assets</u>	<u>Securities fair valued by the Fund's adviser</u>	<u>Percentage of Net Assets</u>
High Income Fund	\$553,512	0.3%	\$1,334,593	0.8%
Intermediate Duration Bond Fund	—	—	14,830	Less than 0.1%
Limited Term Government and Agency Fund	—	—	191,318	Less than 0.1%

**b. Investment Transactions and Related Investment Income.** Investment transactions are accounted for on a trade date plus one day basis for daily NAV calculation. However, for financial reporting purposes, investment transactions are reported on trade date. Dividend income is recorded on ex-dividend date, or in the case of certain foreign securities, as soon as a Fund is notified, and interest income is recorded on an accrual basis. Interest income is increased by the accretion of discount and decreased by the amortization of premium, if applicable. Periodic principal adjustments for inflation-protected securities are recorded to interest income. Negative principal adjustments (in the event of deflation) are recorded as reductions of interest income to the extent of interest income earned, not to exceed the amount of positive principal adjustments on a cumulative basis. In determining net gain or loss on securities sold, the cost of securities has been determined on an identified cost basis. Investment income, non-class specific expenses and realized and unrealized gains and losses are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of the Fund.

**c. Foreign Currency Translation.** The books and records of the Funds are maintained in U.S. dollars. The values of securities, currencies and other assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars based upon foreign exchange rates prevailing at the end of the period. Purchases and sales of investment securities, income and expenses are translated into U.S. dollars on the respective dates of such transactions.

Net realized foreign exchange gains or losses arise from sales of foreign currency, changes in exchange rates between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of assets and liabilities, other than investment securities, as of the end of the fiscal period, resulting from changes in exchange rates. Net realized foreign exchange gains or losses and the net change in unrealized foreign exchange gains or losses are disclosed in the Statements of Operations. For federal

# Notes to Financial Statements (continued)

September 30, 2018

income tax purposes, net realized foreign exchange gains or losses are characterized as ordinary income and may, if the funds have net losses, reduce the amount of income available to be distributed by the Funds.

The values of investment securities are presented at the foreign exchange rates prevailing at the end of the period for financial reporting purposes. Net realized and unrealized gains or losses on investments reported in the Statements of Operations reflect gains or losses resulting from changes in exchange rates and fluctuations which arise due to changes in market prices of investment securities. For federal income tax purposes, a portion of the net realized gain or loss on investments arising from changes in exchange rates, which is reflected in the Statements of Operations, may be characterized as ordinary income and may, if the Funds have net losses, reduce the amount of income available to be distributed by the Funds.

During the year ended September 30, 2018, the amount of income available to be distributed by High Income Fund has been reduced by \$1,175,480, as a result of losses arising from changes in exchange rates.

The Funds may use foreign currency exchange contracts to facilitate transactions in foreign-denominated investments. Losses may arise from changes in the value of the foreign currency or if the counterparties do not perform under the contracts' terms.

**d. Forward Foreign Currency Contracts.** The Funds may enter into forward foreign currency contracts, including forward foreign cross currency contracts to acquire exposure to foreign currencies or to hedge the Funds' investments against currency fluctuation. A contract can also be used to offset a previous contract. These contracts involve market risk in excess of the unrealized gain or loss reflected in the Funds' Statements of Assets and Liabilities. The U.S. dollar value of the currencies a Fund has committed to buy or sell represents the aggregate exposure to each currency a Fund has acquired or hedged through currency contracts outstanding at period end. Gains or losses are recorded for financial statement purposes as unrealized until settlement date. Contracts are traded over-the-counter directly with a counterparty. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. Certain contracts may require the movement of cash and/or securities as collateral for the Funds' or counterparty's net obligations under the contracts.

**e. Futures Contracts.** The Funds may enter into futures contracts. Futures contracts are agreements between two parties to buy and sell a particular instrument or index for a specified price on a specified future date.

When a Fund enters into a futures contract, it is required to deposit with (or for the benefit of) its broker an amount of cash or short-term high-quality securities as "initial margin." As the value of the contract changes, the value of the futures contract

# Notes to Financial Statements (continued)

September 30, 2018

position increases or declines. Subsequent payments, known as “variation margin,” are made or received by a Fund, depending on the price fluctuations in the fair value of the contract and the value of cash or securities on deposit with the broker. The aggregate principal amounts of the contracts are not recorded in the financial statements. Fluctuations in the value of the contracts are recorded in the Statements of Assets and Liabilities as an asset (liability) and in the Statements of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses). Realized gain or loss on a futures position is equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed, minus brokerage commissions. When a Fund enters into a futures contract certain risks may arise, such as illiquidity in the futures market, which may limit a Fund’s ability to close out a futures contract prior to settlement date, and unanticipated movements in the value of securities or interest rates.

Futures contracts are exchange-traded. Exchange-traded futures contracts are standardized and are settled through a clearing house with fulfillment supported by the credit of the exchange. Therefore, counterparty credit risks to the Funds are reduced; however, in the event that a counterparty enters into bankruptcy, a Fund’s claim against initial/variation margin on deposit with the counterparty may be subject to terms of a final settlement in bankruptcy court.

**f. Swap Agreements.** The Funds may enter into credit default swaps. A credit default swap is an agreement between two parties (the “protection buyer” and “protection seller”) to exchange the credit risk of an issuer (“reference obligation”) for a specified time period. The reference obligation may be one or more debt securities or an index of such securities. The Funds may be either the protection buyer or the protection seller. As a protection buyer, the Funds have the ability to hedge the downside risk of an issuer or group of issuers. As a protection seller, the Funds have the ability to gain exposure to an issuer or group of issuers whose bonds are unavailable or in short supply in the cash bond market, as well as realize additional income in the form of fees paid by the protection buyer. The protection buyer is obligated to pay the protection seller a stream of payments (“fees”) over the term of the contract, provided that no credit event, such as a default or a downgrade in credit rating, occurs on the reference obligation. The Funds may also pay or receive upfront premiums. If a credit event occurs, the protection seller must pay the protection buyer the difference between the agreed upon notional value and market value of the reference obligation. Market value in this case is determined by a facilitated auction whereby a minimum number of allowable broker bids, together with a specified valuation method, are used to calculate the value. The maximum potential amount of undiscounted future payments that a Fund as the protection seller could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement.

The notional amounts of swap agreements are not recorded in the financial statements. Swap agreements are valued daily and fluctuations in the value are

# Notes to Financial Statements (continued)

September 30, 2018

recorded in the Statements of Operations as change in unrealized appreciation (depreciation) on swap agreements. Fees are accrued in accordance with the terms of the agreement and are recorded in the Statements of Assets and Liabilities as fees receivable or payable. When received or paid, fees are recorded in the Statements of Operations as realized gain or loss. Upfront premiums paid or received by the Funds are recorded on the Statements of Assets and Liabilities as an asset or liability, respectively, and are amortized or accreted over the term of the agreement and recorded as realized gain or loss. Payments made or received by the Funds as a result of a credit event or termination of the agreement are recorded as realized gain or loss.

Swap agreements are privately negotiated in the over-the-counter (“OTC”) market and may be entered into as a bilateral contract or centrally cleared (“centrally cleared swaps”). Bilateral swap agreements are traded between counterparties and, as such, are subject to the risk that a party to the agreement will not be able to meet its obligations. In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a central counterparty (the “CCP”) and the Fund faces the CCP through a broker. Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash or securities in an amount that varies depending on the size and risk profile of the particular swap. Subsequent payments, known as “variation margin,” are made or received by the Fund based on the daily change in the value of the centrally cleared swap agreement. For centrally cleared swaps, the Fund’s counterparty credit risk is reduced as the CCP stands between the Fund and the counterparty. The Funds cover their net obligations under outstanding swap agreements by segregating or earmarking cash or securities.

No swap agreements were held by the Funds during the year ended September 30, 2018.

**g. When-Issued and Delayed Delivery Transactions.** The Funds may enter into when-issued or delayed delivery transactions. When-issued refers to transactions made conditionally because a security, although authorized, has not been issued. Delayed delivery refers to transactions for which delivery or payment will occur at a later date, beyond the normal settlement period. The price of when-issued and delayed delivery securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. The security and the obligation to pay for it are recorded by the Funds at the time the commitment is entered into. The value of the security may vary with market fluctuations during the time before the Funds take delivery of the security. No interest accrues to the Funds until the transaction settles.

Delayed delivery transactions include those designated as To Be Announced (“TBAs”) in the Portfolios of Investments. For TBAs, the actual security that will be delivered to fulfill the transaction is not designated at the time of the trade. The security is “to be announced” 48 hours prior to the established trade settlement date. Certain

# Notes to Financial Statements (continued)

September 30, 2018

transactions require the Funds or counterparty to post cash and/or securities as collateral for the net mark-to-market exposure to the other party. The Funds cover their net obligations under outstanding delayed delivery commitments by segregating or earmarking cash or securities at the custodian.

Purchases of when-issued or delayed delivery securities may have a similar effect on the Funds' NAV as if the Funds' had created a degree of leverage in the portfolio. Risks may arise upon entering into such transactions from the potential inability of counterparties to meet their obligations under the transactions. Additionally, losses may arise due to changes in the value of the underlying securities.

There were no when-issued or delayed delivery securities held by the Funds as of September 30, 2018.

**h. New Disclosure Requirements.** In accordance with new reporting requirements pursuant to Regulation S-X of the Securities and Exchange Commission, presentation of certain amounts on the Statements of Changes in Net Assets, for the year ended September 30, 2017, have been conformed to meet the new disclosure requirements. These adjustments include Distributions to Shareholders; where the prior disclosure separately stated distributions from net investment income and distributions from net realized capital gains for each share class of the Fund, they are now combined into a single line item for each respective share class. In addition, disclosure of Distributions in Excess of Net Investment Income and Undistributed Net Investment Income, where applicable, has been removed from the Statements of Changes in Net Assets.

The following is a summary of the previously disclosed amounts, as reported at September 30, 2017:

**High Income Fund**

**FROM DISTRIBUTIONS TO SHAREHOLDERS:**

Net investment income	
Class A	\$(1,577,362)
Class C	(453,429)
Class N	(41)
Class Y	(6,175,066)
Total distributions	<u>\$ (8,205,898)</u>

**DISTRIBUTIONS IN EXCESS OF NET INVESTMENT INCOME** \$ (357,359)

# Notes to Financial Statements (continued)

Class A	(146,821)
Class C	(22,477)
Class Y	(1,093,586)
Total distributions	<u>\$ (5,012,106)</u>

### DISTRIBUTIONS IN EXCESS OF NET INVESTMENT INCOME

\$ (24,507)

## Limited Term Government and Agency Fund

### FROM DISTRIBUTIONS TO SHAREHOLDERS:

Net investment income	
Class A	\$ (6,178,474)
Class C	(492,969)
Class N	(19,353)
Class Y	(6,976,388)
Total distributions	<u>\$ (13,667,184)</u>

### UNDISTRIBUTED NET INVESTMENT INCOME

\$ 367,737

**i. Federal and Foreign Income Taxes.** The Trusts treat each Fund as a separate entity for federal income tax purposes. Each Fund intends to meet the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute to its shareholders substantially all of its net investment income and any net realized capital gains at least annually. Management has performed an analysis of each Fund's tax positions for the open tax years as of September 30, 2018 and has concluded that no provisions for income tax are required. The Funds' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service. Management is not aware of any events that are reasonably possible to occur in the next twelve months that would result in the amounts of any unrecognized tax benefits significantly increasing or decreasing for the Funds. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws and accounting regulations and interpretations thereof.

A Fund may be subject to foreign withholding taxes on investment income and taxes on capital gains on investments that are accrued and paid based upon the Fund's understanding of the tax rules and regulations that exist in the countries in which the Fund invests. Foreign withholding taxes on dividend and interest income are reflected on the Statements of Operations as a reduction of investment income, net of amounts eligible to be reclaimed. Dividends and interest receivable on the Statements of Assets and Liabilities are net of foreign withholding taxes. Foreign withholding taxes where

# Notes to Financial Statements (continued)

September 30, 2018

reclaims have been or will be filed are reflected on the Statements of Assets and Liabilities as tax reclaims receivable. Capital gains taxes paid are included in net realized gain (loss) on investments in the Statements of Operations. Accrued but unpaid capital gains taxes are reflected as foreign taxes payable on the Statements of Assets and Liabilities, if applicable, and reduce unrealized gains on investments. In the event that realized gains on investments are subsequently offset by realized losses, taxes paid on realized gains may be returned to a Fund. Such amounts, if applicable, are reflected as foreign tax rebates receivable on the Statements of Assets and Liabilities and are recorded as a realized gain when received.

**j. Dividends and Distributions to Shareholders.** Dividends and distributions are recorded on ex-dividend date. The timing and characterization of certain income and capital gain distributions are determined in accordance with federal tax regulations, which may differ from accounting principles generally accepted in the United States of America. Permanent differences are primarily due to differing treatments for book and tax purposes of items such as foreign currency gains and losses, premium amortization, capital gain distributions received, paydown gains and losses, contingent payment debt instruments, convertible bonds and passive foreign investment company adjustments. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to capital accounts. Temporary differences between book and tax distributable earnings are primarily due to deferred Trustees' fees, wash sales, premium amortization, futures contract mark-to-market, corporate actions, contingent payment debt instruments, convertible bonds, defaulted and/or non-income producing securities, forward foreign currency contract mark-to-market, passive foreign investment company adjustments and return of capital distributions received. Amounts of income and capital gain available to be distributed on a tax basis are determined annually, and at other times during the Funds' fiscal year as may be necessary to avoid knowingly declaring and paying a return of capital distribution. Distributions from net investment income and net realized short-term capital gains are reported as distributed from ordinary income for tax purposes.

The tax characterization of distributions is determined on an annual basis. The tax character of distributions paid to shareholders during the years ended September 30, 2018 and 2017 were as follows:

<u>Fund</u>	<u>2018 Distributions Paid From:</u>		
	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
High Income Fund	\$ 7,550,940	\$ —	\$ 7,550,940
Intermediate Duration Bond Fund	4,433,431	—	4,433,431
Limited Term Government and Agency Fund	14,046,088	—	14,046,088

# Notes to Financial Statements (continued)

September 30, 2018

<u>Fund</u>	<u>2017 Distributions Paid From:</u>		
	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
High Income Fund	\$ 8,205,898	\$ —	\$ 8,205,898
Intermediate Duration Bond Fund	4,972,573	39,533	5,012,106
Limited Term Government and Agency Fund	13,667,184	—	13,667,184

For the year ended September 30, 2017 differences between amounts previously reported and now disclosed in Note 2h of the Notes to Financial Statements are primarily attributable to different book and tax treatment for short-term capital gains.

Distributions paid to shareholders from net investment income and net realized capital gains, based on accounting principles generally accepted in the United States of America, are consolidated and reported on the Statements of Changes in Net Assets as Distributions to Shareholders. Distributions paid to shareholders from net investment income and net realized capital gains expressed in per-share amounts, based on accounting principles generally accepted in the United States of America, are separately stated and reported within the Financial Highlights.

As of September 30, 2018, the components of distributable earnings on a tax basis were as follows:

	<u>High Income Fund</u>	<u>Intermediate Duration Bond Fund</u>	<u>Limited Term Government and Agency Fund</u>
Undistributed ordinary income	\$ 1,078,412	\$ 52,463	\$ 538,665
Undistributed long-term capital gains	469,476	—	—
Total undistributed earnings	<u>1,547,888</u>	<u>52,463</u>	<u>538,665</u>
Capital loss carryforward:			
Short-term:			
No expiration date	—	(3,060,576)	(2,596,770)
Long-term:			
No expiration date	—	(1,011,526)	(26,585,289)
Total capital loss carryforward	<u>—</u>	<u>(4,072,102)</u>	<u>(29,182,059)</u>
Unrealized depreciation	(6,689,347)	(3,003,720)	(15,829,352)
Total accumulated losses	<u>\$(5,141,459)</u>	<u>\$(7,023,359)</u>	<u>\$(44,472,746)</u>
Capital loss carryforward utilized in the current year	<u>\$ 989,819</u>	<u>\$ —</u>	<u>\$ —</u>

## Notes to Financial Statements (continued)

September 30, 2018

As of September 30, 2018, unrealized depreciation as a component of distributable earnings was as follows:

	High Income Fund	Intermediate Duration Bond Fund	Limited Term Government and Agency Fund
Unrealized depreciation			
Investments	\$ (4,535,979)	\$ (3,003,720)	\$ (15,829,352)
Foreign currency translations	(2,153,368)	—	—
Total unrealized depreciation	<u>\$ (6,689,347)</u>	<u>\$ (3,003,720)</u>	<u>\$ (15,829,352)</u>

As of September 30, 2018, the tax cost of investments (including derivatives, if applicable) and unrealized appreciation (depreciation) on a federal tax basis were as follows:

	High Income Fund	Intermediate Duration Bond Fund	Limited Term Government and Agency Fund
Federal tax cost	<u>\$174,165,501</u>	<u>\$169,838,224</u>	<u>\$743,297,542</u>
Gross tax appreciation	\$ 4,788,983	\$ 256,574	\$ 1,842,467
Gross tax depreciation	(11,435,839)	(3,260,294)	(17,671,819)
Net tax depreciation	<u>\$ (6,646,856)</u>	<u>\$ (3,003,720)</u>	<u>\$ (15,829,352)</u>

Differences between these amounts and those reported in the components of distributable earnings are primarily attributable to unrealized foreign exchange gains or losses.

**k. Loan Participations.** High Income Fund may invest in loans to corporate, governmental or other borrowers. The Funds' investments in loans may be in the form of participations in loans or assignments of all or a portion of loans. A loan is often administered by a bank or other financial institution that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. When investing in a loan participation, (i) a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the party from whom the Fund has purchased the participation and only upon receipt by that party of payments from the borrower and (ii) a Fund generally has no right to enforce compliance by the borrower with the terms of the loan agreement or to vote on matters arising under the loan agreement. Thus, a Fund may be subject to credit risk both of the party from whom it purchased the loan participation and the borrower and the Fund may have minimal control over the terms of any loan modification. When a Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan. Loan

# Notes to Financial Statements (continued)

September 30, 2018

agreements and participations outstanding at the end of the period, if any, are listed in each applicable Fund's Schedule of Investments.

**I. Repurchase Agreements.** Each Fund may enter into repurchase agreements, under the terms of a Master Repurchase Agreement, under which each Fund acquires securities as collateral and agrees to resell the securities at an agreed upon time and at an agreed upon price. It is each Fund's policy that the market value of the collateral for repurchase agreements be at least equal to 102% of the repurchase price, including interest. Certain repurchase agreements are tri-party arrangements whereby the collateral is held in a segregated account for the benefit of the Fund and on behalf of the counterparty. Repurchase agreements could involve certain risks in the event of default or insolvency of the counterparty, including possible delays or restrictions upon a Fund's ability to dispose of the underlying securities. As of September 30, 2018, each Fund, as applicable, had investments in repurchase agreements for which the value of the related collateral exceeded the value of the repurchase agreement. The gross value of repurchase agreements is included in the Statements of Assets and Liabilities for financial reporting purposes.

**m. Due to/from Brokers.** Transactions and positions in certain futures and forward foreign currency contracts are maintained and cleared by registered U.S. broker/dealers pursuant to customer agreements between the Funds and the various broker/dealers. The due to broker balance in the Statements of Assets and Liabilities for High Income Fund represents cash received as collateral for forward foreign currency contracts. The due from broker balance in the Statements of Assets and Liabilities for Intermediate Duration Bond Fund represents cash pledged as initial margin for futures contracts. In certain circumstances the Fund's use of cash held at brokers is restricted by regulation or broker mandated limits.

**n. Securities Lending.** The Funds have entered into an agreement with State Street Bank and Trust Company ("State Street Bank"), as agent of the Funds, to lend securities to certain designated borrowers. The loans are collateralized with cash or securities in an amount equal to at least 105% or 102% of the market value (including accrued interest) of the loaned international or domestic securities, respectively, when the loan is initiated. Thereafter, the value of the collateral must remain at least 102% of the market value (including accrued interest) of loaned securities for U.S. equities and U.S. corporate debt; at least 105% of the market value (including accrued interest) of loaned securities for non-U.S. equities; and at least 100% of the market value (including accrued interest) of loaned securities for U.S. Government securities, sovereign debt issued by non-U.S. Governments and non-U.S. corporate debt. In the event that the market value of the collateral falls below the required percentages described above, the borrower will deliver additional collateral on the next business day. As with other extensions of credit, the Funds may bear the risk of loss with respect to the investment of the collateral. The Funds invest cash collateral in short-term investments, a portion

# Notes to Financial Statements (continued)

September 30, 2018

of the income from which is remitted to the borrowers and the remainder allocated between the Funds and State Street Bank as lending agent.

For the year ended September 30, 2018, none of the Funds had loaned securities under this agreement.

**o. Indemnifications.** Under the Trusts' organizational documents, their officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. Additionally, in the normal course of business, the Funds enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

**3. Fair Value Measurements.** In accordance with accounting standards related to fair value measurements and disclosures, the Funds have categorized the inputs utilized in determining the value of each Fund's assets or liabilities. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – prices determined using other significant inputs that are observable either directly, or indirectly through corroboration with observable market data (which could include quoted prices for similar assets or liabilities, interest rates, credit risk, etc.); and
- Level 3 – prices determined using significant unobservable inputs when quoted prices or observable inputs are unavailable such as when there is little or no market activity for an asset or liability (unobservable inputs reflect each Fund's own assumptions in determining the fair value of assets or liabilities and would be based on the best information available).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Funds' pricing policies and procedures are recommended by the adviser and approved by the Board of Trustees. Debt securities are valued based on evaluated bids furnished to the Funds by an independent pricing service. Broker-dealer bid prices may be used if an independent pricing service either is unable to price a security or does not provide a reliable price for a security. Broker-dealer bid prices for which the Funds do not have knowledge of the inputs used by the broker-dealer are categorized in Level 3. All security prices, including those obtained from an independent pricing service and broker-dealer bid prices, are reviewed on a daily basis by the adviser, subject to oversight by Fund management and the Board of Trustees. If the adviser, in good faith, believes that the price provided by an independent pricing service is unreliable, broker-dealer bid prices may be used until the price provided by the

# Notes to Financial Statements (continued)

September 30, 2018

independent pricing service is considered to be reliable. Reliability of all security prices, including those obtained from an independent pricing service and broker-dealer bid prices, is tested in a variety of ways, including comparison to recent transaction prices and daily fluctuations, amongst other validation procedures in place. Securities for which market quotations are not readily available are valued at fair value as determined in good faith by the Funds' adviser pursuant to procedures approved by the Board of Trustees. Fair valued securities may be categorized in Level 3.

The following is a summary of the inputs used to value the Funds' investments as of September 30, 2018, at value:

## High Income Fund

### Asset Valuation Inputs

Description	Level 1	Level 2	Level 3	Total
Bonds and Notes				
Non-Convertible Bonds

(a) Includes a security fair valued at zero using Level 3 inputs that expired as worthless during period.

A debt security valued at \$27,040 was transferred from Level 2 to Level 3 during the period ended September 30, 2018. At September 30, 2017, this security was valued on the basis of evaluated bids furnished to the Fund by an independent pricing service in accordance with the Fund's valuation policies. At September 30, 2018, this security was valued at fair value as determined in good faith by the Fund's adviser as an independent pricing service did not provide a reliable price for the security.

Common stocks valued at \$123,079 were transferred from Level 3 to Level 2 during the period ended September 30, 2018. At September 30, 2017, these securities were valued at fair value as determined in good faith by the Fund's adviser using broker-dealer bid prices for which the inputs are unobservable to the Fund. At September 30, 2018, these

# Notes to Financial Statements (continued)

September 30, 2018

securities were valued on the basis of closing bid quotations furnished to the Fund by an independent pricing service in accordance with the Fund's valuation policies.

All transfers are recognized as of the beginning of the reporting period.

**4. Derivatives.** Derivative instruments are defined as financial instruments whose value and performance are based on the value and performance of an underlying asset, reference rate or index. Derivative instruments that High Income Fund and Intermediate Duration Bond Fund used during the period include forward foreign currency contracts and futures contracts, respectively.

High Income Fund is subject to the risk that changes in foreign currency exchange rates will have an unfavorable effect on the value of Fund assets denominated in foreign currencies. The Fund may enter into forward foreign currency contracts for hedging purposes to protect the value of the Fund's holdings of foreign securities. The Fund may also use forward foreign currency contracts to gain exposure to foreign currencies, regardless of whether securities denominated in such currencies are held in the Fund. During the year ended September 30, 2018, High Income Fund engaged in forward foreign currency transactions for hedging purposes.

Intermediate Duration Bond Fund is subject to the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income securities. A Fund will be subject to increased interest rate risk to the extent that it invests in fixed-income securities with longer maturities or durations, as compared to investing in fixed-income securities with shorter maturities or durations. The Fund may use futures contracts to

# Notes to Financial Statements (continued)

September 30, 2018

hedge against changes in interest rates and to manage its duration in order to control interest rate risk without having to buy or sell portfolio securities. During the year ended September 30, 2018, Intermediate Duration Bond Fund used futures contracts for hedging purposes and to manage duration.

The following is a summary of derivative instruments for High Income Fund as of September 30, 2018, as reflected within the Statements of Assets and Liabilities:

	Unrealized appreciation on forward foreign <u>currency contracts</u>
<u>Assets</u>	
Over-the-counter asset derivatives	
Foreign exchange contracts	\$142,661
	Unrealized depreciation on forward foreign <u>currency contracts</u>
<u>Liabilities</u>	
Over-the-counter liability derivatives	
Foreign exchange contracts	\$(57,977)

Transactions in derivative instruments for High Income Fund during the year ended September 30, 2018, as reflected within the Statements of Operations, were as follows:

	Forward foreign <u>currency contracts</u>
<u>Net Realized Gain (Loss) on:</u>	
Foreign exchange contracts	\$(165,859)
Net Change in Unrealized	Forward foreign
<u>Appreciation (Depreciation) on:</u>	<u>currency contracts</u>
Foreign exchange contracts	\$ 84,684

The following is a summary of derivative instruments for Intermediate Duration Bond Fund as of September 30, 2018, as reflected within the Statements of Assets and Liabilities:

	Unrealized depreciation on <u>futures contracts</u>
<u>Liabilities</u>	
Exchange-traded liability derivatives	
Interest rate contracts	\$(124,712)

# Notes to Financial Statements (continued)

September 30, 2018

Transactions in derivative instruments for Intermediate Duration Bond Fund during the year ended September 30, 2018, as reflected within the Statements of Operations, were as follows:

<u>Net Realized Gain (Loss) on:</u>	Futures
Interest rate contracts	<u>contracts</u>
	\$(359,501)
<u>Net Change in Unrealized</u>	Futures
<u>Appreciation (Depreciation) on:</u>	<u>contracts</u>
Interest rate contracts	\$ (21,437)

As the Funds value their derivatives at fair value and recognize changes in fair value through the Statements of Operations, they do not qualify for hedge accounting under authoritative guidance for derivative instruments. The Funds' investments in derivatives may represent an economic hedge; however, they are considered to be non-hedge transactions for the purpose of these disclosures.

The volume of forward foreign currency contract and futures contract activity, as a percentage of net assets, based on gross month-end notional amounts outstanding during the period, including long and short positions at absolute value, was as follows for the year ended September 30, 2018:

<u>High Income Fund</u>	<u>Forwards</u>
Average Notional Amount Outstanding	1.87%
Highest Notional Amount Outstanding	4.31%
Lowest Notional Amount Outstanding	0.95%
Notional Amount Outstanding as of September 30, 2018	2.80%
<u>Intermediate Duration Bond Fund</u>	<u>Futures</u>
Average Notional Amount Outstanding	6.88%
Highest Notional Amount Outstanding	12.47%
Lowest Notional Amount Outstanding	4.93%
Notional Amount Outstanding as of September 30, 2018	12.37%

Notional amounts outstanding at the end of the prior period are included in the average notional amount outstanding.

Unrealized gain and/or loss on open forwards and futures is recorded in the Statements of Assets and Liabilities. The aggregate notional values of forward and futures contracts are not recorded in the Statements of Assets and Liabilities, and therefore are not included in the Funds' net assets.

Over-the-counter derivatives, including forward foreign currency contracts, are entered into pursuant to International Swaps and Derivatives Association, Inc. ("ISDA") agreements negotiated between the Funds and their counterparties. ISDA

# Notes to Financial Statements (continued)

September 30, 2018

agreements typically contain, among other things, terms for the posting of collateral and master netting provisions in the event of a default or other termination event. Collateral is posted by a Fund or the counterparty to the extent of the net mark-to-market exposure to the other party of all open contracts under the agreement, subject to minimum transfer requirements. Master netting provisions allow the Funds and the counterparty, in the event of a default or other termination event, to offset amounts owed by each related to derivative contracts, including any posted collateral, to one net amount payable by either the Funds or the counterparty. The Funds' ISDA agreements typically contain provisions that allow a counterparty to terminate open contracts early if the NAV of a Fund declines beyond a certain threshold. For financial reporting purposes, the Funds do not offset derivative assets and liabilities, and any related collateral received or pledged, on the Statements of Assets and Liabilities.

As of September 30, 2018, gross amounts of over-the-counter derivative assets and liabilities not offset in the Statements of Assets and Liabilities and the related net amounts after taking into account master netting arrangements, by counterparty, are as follows:

## High Income Fund

<u>Counterparty</u>	<u>Gross Amounts of Assets</u>	<u>Offset Amount</u>	<u>Net Asset Balance</u>	<u>Collateral (Received)/ Pledged</u>	<u>Net Amount</u>
Bank of America, N.A.	\$126,332	\$ —	\$126,332	\$(126,332)	\$ —
Goldman Sachs & Co.	12,728	(12,728)	—	—	—
HSBC Bank USA	3,601	—	3,601	—	3,601
	<u>\$142,661</u>	<u>\$(12,728)</u>	<u>\$129,933</u>	<u>\$(126,332)</u>	<u>\$ 3,601</u>

<u>Counterparty</u>	<u>Gross Amounts of Liabilities</u>	<u>Offset Amount</u>	<u>Net Liability Balance</u>	<u>Collateral (Received)/ Pledged</u>	<u>Net Amount</u>
Goldman Sachs & Co.	<u>\$(57,977)</u>	<u>\$ 12,728</u>	<u>\$(45,249)</u>	<u>\$ —</u>	<u>\$(45,249)</u>

The actual collateral received or pledged, if any, may exceed the amounts shown in the table due to overcollateralization. Timing differences may exist between when contracts under the ISDA agreements are marked-to-market and when collateral moves. The ISDA agreements include tri-party control agreements under which collateral is held for the benefit of the secured party at a third party custodian, State Street Bank.

# Notes to Financial Statements (continued)

September 30, 2018

Counterparty risk is managed based on policies and procedures established by each Fund's adviser. Such policies and procedures may include, but are not limited to, minimum counterparty credit rating requirements, monitoring of counterparty credit default swap spreads and posting of collateral. A Fund's risk of loss from counterparty credit risk on over-the-counter derivatives is generally limited to the Fund's aggregated unrealized gains and the amount of any collateral pledged to the counterparty, which may be offset by any collateral posted to the Fund by the counterparty. ISDA master agreements can help to manage counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under these ISDA agreements, collateral is routinely transferred if the total net exposure in respect of certain transactions, net of existing collateral already in place, exceeds a specified amount (typically \$250,000, depending on the counterparty). With exchange-traded derivatives, there is minimal counterparty credit risk to the Fund because the exchange's clearing house, as counterparty to these instruments, stands between the buyer and the seller of the contract. Credit risk still exists in exchange-traded derivatives with respect to initial and variation margin that is held in a broker's customer accounts. While brokers are required to segregate customer margin from their own assets, in the event that a broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the broker for all its clients, U.S. bankruptcy laws will typically allocate that shortfall on a pro rata basis across all of the broker's customers, potentially resulting in losses to the Fund. Based on balances reflected on each Fund's Statement of Assets and Liabilities, the following table shows (i) the maximum amount of loss due to credit risk that, based on the gross fair value of the financial instrument, the Fund would incur if parties (including OTC derivative counterparties and brokers holding margin for exchange-traded derivatives) to the relevant financial instruments failed completely to perform according to the terms of the contracts and the collateral or other security, if any, for the amount due proved to be of no value to the Fund, and (ii) the amount of loss that the Fund would incur after taking into account master netting provisions pursuant to ISDA agreements, as of September 30, 2018:

<u>Fund</u>	<u>Maximum Amount of Loss - Gross</u>	<u>Maximum Amount of Loss - Net</u>
High Income Fund	\$142,661	\$ 3,601
Intermediate Duration Bond Fund	145,018	145,018

Net loss amount reflects cash received as collateral for High Income Fund of \$270,000.

# Notes to Financial Statements (continued)

September 30, 2018

**5. Purchases and Sales of Securities.** For the year ended September 30, 2018, purchases and sales of securities (excluding short-term investments and including paydowns) were as follows:

Fund	U.S. Government/ Agency Securities		Other Securities	
	Purchases	Sales	Purchases	Sales
High Income Fund	\$ 15,060,563	\$ 8,296,030	\$ 76,837,448	\$ 81,495,859
Intermediate Duration Bond Fund	91,116,861	116,365,077	176,274,235	160,832,425
Limited Term Government and Agency Fund	986,892,701	942,154,700	53,253,728	104,790,844

## 6. Management Fees and Other Transactions with Affiliates.

**a. Management Fees.** Loomis, Sayles & Company, L.P. (“Loomis Sayles”) serves as investment adviser to each Fund. Under the terms of the management agreements, each Fund pays a management fee at the following annual rates, calculated daily and payable monthly, based on each Fund’s average daily net assets:

Fund	Percentage of Average Daily Net Assets		
	First \$500 million	Next \$1.5 billion	Over \$2 billion
High Income Fund	0.6000%	0.6000%	0.6000%
Intermediate Duration Bond Fund	0.2500%	0.2500%	0.2500%
Limited Term Government and Agency Fund	0.3750%	0.3500%	0.3000%

Loomis Sayles has given binding undertakings to the Funds to waive management fees and/or reimburse certain expenses to limit the Funds’ operating expenses, exclusive of acquired fund fees and expenses, brokerage expenses, interest expense, taxes, organizational and extraordinary expenses such as litigation and indemnification expenses. These undertakings are in effect until January 31, 2019, may be terminated before then only with the consent of the Funds’ Board of Trustees, and are reevaluated on an annual basis. Management fees payable, as reflected on the Statements of Assets and Liabilities, is net of waivers and/or expense reimbursements, if any, pursuant to these undertakings. Waivers/reimbursements that exceed management fees payable are reflected on the Statements of Assets and Liabilities as receivable from investment adviser.

# Notes to Financial Statements (continued)

September 30, 2018

For the year ended September 30, 2018 the expense limits as a percentage of average daily net assets under the expense limitation agreements were as follows:

Fund	Expense Limit as a Percentage of Average Daily Net Assets			
	Class A	Class C	Class N	Class Y
High Income Fund	1.05%	1.80%	0.75%	0.80%
Intermediate Duration Bond Fund	0.65%	1.40%	—	0.40%
Limited Term Government and Agency Fund	0.80%	1.55%	0.50%	0.55%

Loomis Sayles shall be permitted to recover expenses borne under the expense limitation agreements (whether through waiver of management fees or otherwise) on a class by class basis in later periods to the extent the annual operating expenses of a class fall below a class' expense limits, provided, however, that a class is not obligated to pay such waived/reimbursed fees or expenses more than one year after the end of the fiscal year in which the fees or expenses were waived/reimbursed.

For the year ended September 30, 2018, the management fees and waivers of management fees for each Fund were as follows:

Fund	Gross	Contractual	Net	Percentage of	
	Management	Waivers of	Management	Average	
	Fees	Fees <sup>1</sup>	Fees	Gross	Net
High Income Fund	\$1,042,957	\$190,092	\$ 852,865	0.60%	0.49%
Intermediate Duration Bond Fund	442,379	94,365	348,014	0.25%	0.20%
Limited Term Government and Agency Fund	2,613,773	—	2,613,773	0.37%	0.37%

For the year ended September 30, 2018, class-specific expenses have been reimbursed as follows:

Fund	Reimbursement <sup>1</sup>				
	Class A	Class C	Class N	Class Y	Total
Limited Term Government and Agency Fund	\$6,432	\$478	\$ —	\$5,647	\$12,557

<sup>1</sup> Waiver/expense reimbursements are subject to possible recovery until September 30, 2019.

No expenses were recovered for any of the Funds during the year ended September 30, 2018 under the terms of the expense limitation agreements.

Certain officers and employees of Loomis Sayles are also officers or Trustees of the Trust. Loomis Sayles' general partner is indirectly owned by Natixis Investment Managers, L.P. ("Natixis"), which is part of Natixis Investment Managers, an international asset management group based in Paris, France.

# Notes to Financial Statements (continued)

September 30, 2018

**b. Service and Distribution Fees.** Natixis Distribution, L.P. (“Natixis Distribution”), which is a wholly-owned subsidiary of Natixis, has entered into a distribution agreement with the Trusts. Pursuant to this agreement, Natixis Distribution serves as principal underwriter of the Funds of the Trusts.

Pursuant to Rule 12b-1 under the 1940 Act, the Trusts have adopted a Service Plan relating to each Fund’s Class A shares (the “Class A Plans”) and a Distribution and Service Plan relating to each Fund’s Class B and Class C shares (the “Class C Plans”).

Under the Class A Plans, each Fund pays Natixis Distribution a monthly service fee at an annual rate not to exceed 0.25% of the average daily net assets attributable to the Fund’s Class A shares, as reimbursement for expenses incurred by Natixis Distribution in providing personal services to investors in Class A shares and/or the maintenance of shareholder accounts.

Under the Class C Plans, each Fund pays Natixis Distribution a monthly service fee at an annual rate not to exceed 0.25% of the average daily net assets attributable to the Fund’s Class C shares, as compensation for services provided by Natixis Distribution in providing personal services to investors in Class C shares and/or the maintenance of shareholder accounts.

Also under the Class C Plans, each Fund pays Natixis Distribution a monthly distribution fee at the annual rate of 0.75% of the average daily net assets attributable to the Fund’s Class C shares, as compensation for services provided by Natixis Distribution in connection with the marketing or sale of Class C shares.

For the year ended September 30, 2018, the service and distribution fees for each Fund were as follows:

Fund	Service Fees		Distribution Fees
	Class A	Class C	Class C
High Income Fund	\$ 73,200	\$22,588	\$ 67,762
Intermediate Duration Bond Fund	50,567	5,356	16,069
Limited Term Government and Agency Fund	803,275	82,753	248,259

**c. Administrative Fees.** Natixis Advisors, L.P. (“Natixis Advisors”) provides certain administrative services for the Funds and contracts with State Street Bank to serve as sub-administrator. Natixis Advisors is a wholly-owned subsidiary of Natixis. Pursuant to an agreement among Natixis Funds Trusts, Loomis Sayles Funds Trusts, Natixis ETF Trust and Natixis Advisors, each Fund pays Natixis Advisors monthly its *pro rata* portion of fees equal to an annual rate of 0.0575% of the first \$15 billion of the average daily net assets of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, 0.0500% of the next \$15 billion, 0.0400% of the next \$30 billion, 0.0275% of the next \$30 billion and 0.0225% of such assets in excess of \$90 billion, subject to an annual aggregate minimum fee for the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust of \$10 million, which is reevaluated on an annual basis.

# Notes to Financial Statements (continued)

September 30, 2018

Prior to July 1, 2018, each Fund paid Natixis Advisors monthly its *pro rata* portion of fees equal to an annual rate of 0.0575% of the first \$15 billion of the average daily net assets of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, 0.0500% of the next \$15 billion, 0.0400% of the next \$30 billion, 0.0350% of the next \$30 billion and 0.0325% of such assets in excess of \$90 billion, subject to an annual aggregate minimum fee for the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust of \$10 million, which was reevaluated on an annual basis.

For the year ended September 30, 2018, the administrative fees for each Fund were as follows:

<u>Fund</u>	<u>Administrative Fees</u>
High Income Fund	\$ 76,503
Intermediate Duration Bond Fund	77,895
Limited Term Government and Agency Fund	312,980

**d. Sub-Transfer Agent Fees.** Natixis Distribution has entered into agreements, which include servicing agreements, with financial intermediaries that provide recordkeeping, processing, shareholder communications and other services to customers of the intermediaries that hold positions in the Funds and has agreed to compensate the intermediaries for providing those services. Intermediaries transact with the Funds primarily through the use of omnibus accounts on behalf of their customers who hold positions in the Funds. These services would have been provided by the Funds' transfer agent and other service providers if the shareholders' accounts were maintained directly at the Funds' transfer agent. Accordingly, the Funds have agreed to reimburse Natixis Distribution for all or a portion of the servicing fees paid to these intermediaries. The reimbursement amounts (sub-transfer agent fees) paid to Natixis Distribution are subject to a current per-account equivalent fee limit approved by the Funds' Board of Trustees, which is based on fees for similar services paid to the Funds' transfer agent and other service providers. Class N shares do not bear such expenses.

For the year ended September 30, 2018, the sub-transfer agent fees (which are reflected in transfer agent fees and expenses in the Statements of Operations) for each Fund were as follows:

<u>Fund</u>	<u>Sub-Transfer Agent Fees</u>
High Income Fund	\$180,154
Intermediate Duration Bond Fund	90,313
Limited Term Government and Agency Fund	346,984

# Notes to Financial Statements (continued)

September 30, 2018

As of September 30, 2018, the Funds owe Natixis Distribution the following reimbursements for sub-transfer agent fees (which are reflected in the Statements of Assets and Liabilities as payable to distributor):

<u>Fund</u>	<u>Reimbursements of Sub-Transfer Agent Fees</u>
Intermediate Duration Bond Fund	\$ 1,142
Limited Term Government and Agency Fund	11,397

As of September 30, 2018, Natixis Distribution owes the High Income Fund \$3,341 for overpayments of sub-transfer agent fees (which are reflected in the Statements of Assets and Liabilities as receivable from distributor).

Sub-transfer agent fees attributable to Class A, Class C and Class Y are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of those classes.

**e. Commissions.** Commissions (including CDSCs) on Fund shares retained by Natixis Distribution during the year ended September 30, 2018 were as follows:

<u>Fund</u>	<u>Commissions</u>
High Income Fund	\$ 2,275
Intermediate Duration Bond Fund	88
Limited Term Government and Agency Fund	20,543

**f. Trustees Fees and Expenses.** The Trusts do not pay any compensation directly to their officers or Trustees who are directors, officers or employees of Natixis Advisors, Natixis Distribution, Natixis or their affiliates. The Chairperson of the Board of Trustees receives a retainer fee at the annual rate of \$340,000. The Chairperson does not receive any meeting attendance fees for Board of Trustees meetings or committee meetings that he attends. Each Independent Trustee (other than the Chairperson) receives, in the aggregate, a retainer fee at the annual rate of \$170,000. Each Independent Trustee also receives a meeting attendance fee of \$10,000 for each meeting of the Board of Trustees that he or she attends in person and \$5,000 for each meeting of the Board of Trustees that he or she attends telephonically. In addition, the chairperson of the Contract Review Committee and the chairperson of the Audit Committee each receive an additional retainer fee at the annual rate of \$20,000. The chairperson of the Governance Committee receives an additional retainer fee at the annual rate of \$12,000. Each Contract Review Committee member is compensated \$6,000 for each Committee meeting that he or she attends in person and \$3,000 for each meeting that he or she attends telephonically. Each Audit Committee member is compensated \$6,000 for each Committee meeting that he or she attends in person and \$3,000 for each meeting that he or she attends telephonically. These fees are allocated among the funds in the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust based on a formula that

# Notes to Financial Statements (continued)

September 30, 2018

takes into account, among other factors, the relative net assets of each fund. Trustees are reimbursed for travel expenses in connection with attendance at meetings.

Prior to January 1, 2018, the Chairperson of the Board received a retainer fee at the annual rate of \$325,000 and each Independent Trustee (other than the Chairperson) received, in the aggregate, a retainer fee at the annual rate of \$155,000, the chairperson of the Contract Review Committee and Audit Committee each received an additional retainer fee at the annual rate of \$17,500 and the chairperson of the Governance Committee received an additional retainer fee at the annual rate of \$10,000. All other Trustee fees remained unchanged.

A deferred compensation plan (the “Plan”) is available to the Trustees on a voluntary basis. Deferred amounts remain in the Funds until distributed in accordance with the provisions of the Plan. The value of a participating Trustee’s deferral account is based on theoretical investments of deferred amounts, on the normal payment dates, in certain funds of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust as designated by the participating Trustees. Changes in the value of participants’ deferral accounts are allocated *pro rata* among the funds in the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, and are normally reflected as Trustees’ fees and expenses in the Statements of Operations. The portions of the accrued obligations allocated to the Funds under the Plan are reflected as Deferred Trustees’ fees in the Statements of Assets and Liabilities.

**g. Affiliated Ownership.** As of September 30, 2018, the percentage of each Fund’s net assets owned by affiliates is as follows:

	Percentage of <u>Net Assets</u>
<u>Intermediate Duration Bond Fund</u>	
Loomis Sayles Employees’ Profit Sharing Retirement Plan	1.16%
Natixis Advisors	less than 0.01%
<u>Limited Term Government and Agency Fund</u>	
Loomis Sayles Employees’ Profit Sharing Retirement Plan	0.23%
Natixis Sustainable Future 2015 Fund	0.08%
Natixis Sustainable Future 2020 Fund	0.07%
Natixis Sustainable Future 2025 Fund	0.05%
Natixis Sustainable Future 2030 Fund	0.03%
Natixis Sustainable Future 2035 Fund	0.02%
Natixis Sustainable Future 2040 Fund	0.01%
Natixis Sustainable Future 2045 Fund	0.01%
Natixis Sustainable Future 2050 Fund	less than 0.01%
Natixis Sustainable Future 2055 Fund	less than 0.01%
Natixis Sustainable Future 2060 Fund	less than 0.01%

# Notes to Financial Statements (continued)

September 30, 2018

Investment activities of affiliated shareholders could have material impacts on the Funds.

**h. Reimbursement of Transfer Agent Fees and Expenses.** Natixis Advisors has given a binding contractual undertaking to the High Income Fund and Limited Term Government and Agency Fund to reimburse any and all transfer agency expenses for the Funds' Class N shares. This undertaking is in effect through January 31, 2019 and is not subject to recovery under the expense limitation agreement described above.

For the year ended September 30, 2018, Natixis Advisors reimbursed the Funds for transfer agency expenses as follows:

<u>Fund</u>	Reimbursement of Transfer Agency Expenses
	<u>Class N</u>
High Income Fund	\$195
Limited Term Government and Agency Fund	298

**i. Payment by Affiliates.** For the year ended September 30, 2018, Loomis Sayles reimbursed Intermediate Duration Bond Fund \$452, High Income Fund \$4,468 and Limited Term Government and Agency Fund \$9,370 in connection with trading errors.

**7. Class-Specific Transfer Agent Fees and Expenses.** Transfer agent fees and expenses attributable to Class A, Class C, and Class Y are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of those classes. Transfer agent fees and expenses attributable to Class N are allocated to Class N.

Intermediate Duration Bond Fund allocates transfer agent fees and expenses on a *pro rata* basis based on the relative net assets of each class to the total net assets of those classes.

For the year ended September 30, 2018, the Funds incurred the following class-specific transfer agent fees and expenses (including sub-transfer agent fees, where applicable):

<u>Fund</u>	<u>Transfer Agent Fees and Expenses</u>			
	<u>Class A</u>	<u>Class C</u>	<u>Class N</u>	<u>Class Y</u>
High Income Fund	\$ 35,697	\$10,941	\$195	\$158,208
Limited Term Government and Agency Fund	284,075	29,226	298	313,177

**8. Line of Credit.** Effective April 12, 2018, each Fund, together with certain other funds of Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, entered into a \$400,000,000 committed unsecured line of credit provided by State Street Bank and Trust. Any one Fund may borrow up to \$350,000,000 under the line of credit agreement (as long as all borrowings by all Funds in the aggregate do not exceed the \$400,000,000

# Notes to Financial Statements (continued)

September 30, 2018

limit at any time), subject to each Fund's investment restrictions and its contractual obligations under the line of credit. Interest is charged to the Funds based upon the terms set forth in the agreement. In addition, a commitment fee of 0.15% per annum, payable at the end of each calendar quarter, is accrued and apportioned among the participating funds based on their average daily unused portion of the line of credit. The Funds paid an arrangement fee, an upfront fee, and other fees in connection with the new line of credit agreement, which are being amortized over a period of 364 days and are reflected as miscellaneous expenses on the Statements of Operations. The unamortized balance is reflected as prepaid expenses on the Statements of Assets and Liabilities.

Prior to April 12, 2018, each Fund, together with certain other funds of Natixis Funds Trusts and Loomis Sayles Funds Trusts, entered into a 364-day, \$400,000,000 syndicated, committed, unsecured line of credit with Citibank, N.A. to be used for temporary or emergency purposes only. Any one Fund was able borrow up to the full \$400,000,000 under the line of credit (as long as all borrowings by all Funds in the aggregate did not exceed the \$400,000,000 limit at any time), subject to each Fund's investment restrictions and its contractual obligations under the line of credit. Interest was charged to the Funds at a rate equal to the greater of the eurodollar or the federal funds rate plus 1.00%. In addition, a commitment fee of 0.15% per annum, payable on the last business day of each month, was accrued and apportioned among the participating funds based on their average daily unused portion of the line of credit.

For the year ended September 30, 2018, none of the Funds had borrowings under this agreement.

**9. Concentration of Risk.** Limited Term Government and Agency Fund's investments in mortgage-related and asset-backed securities are subject to certain risks not associated with investments in other securities. Mortgage-related and asset-backed securities are subject to the risk that unexpected changes in interest rates will have a direct effect on expected maturity. A shortened maturity may result in the reinvestment of prepaid amounts in securities with lower yields than the original obligations. An extended maturity may result in a reduction of a security's value.

Each Fund's investments in foreign securities are subject to foreign currency fluctuations, higher volatility than U.S. securities, varying degrees of regulation and limited liquidity. Greater political, economic, credit and information risks are also associated with foreign securities.

**10. Concentration of Ownership.** From time to time, a Fund may have a concentration of one or more accounts constituting a significant percentage of shares outstanding. Investment activities by holders of such accounts could have material impacts on the Funds. As of September 30, 2018, based on management's evaluation of the shareholder account base, the Funds had accounts representing controlling ownership

# Notes to Financial Statements (continued)

September 30, 2018

of more than 5% of the Fund's total outstanding shares. The number of such accounts, based on accounts that represent more than 5% of an individual class of shares, and the aggregate percentage of net assets represented by such holdings were as follows:

<u>Fund</u>	<u>Number of 5% Account Holders</u>	<u>Percentage of Ownership</u>
High Income Fund	1	6.07%
Intermediate Duration Bond Fund	2	15.75%

Omnibus shareholder accounts for which Natixis Advisors understands that the intermediary has discretion over the underlying shareholder accounts or investment models where a shareholder account may be invested for a non-discretionary customer are included in the table above. For other omnibus accounts, the Funds do not have information on the individual shareholder accounts underlying the omnibus accounts; therefore, there could be other 5% shareholders in addition to those disclosed in the table above.

# Notes to Financial Statements (continued)

September 30, 2018

**11. Capital Shares.** Each Fund may issue an unlimited number of shares of beneficial interest, without par value. Transactions in capital shares were as follows:

**12. Subsequent Event.** On October 5, 2018, the Board of Trustees approved a change to the fiscal year end of High Income Fund from September 30 to December 31.

# Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Loomis Sayles Funds I and Loomis Sayles Funds II and Shareholders of Loomis Sayles Intermediate Duration Bond Fund, Loomis Sayles High Income Fund and Loomis Sayles Limited Term Government and Agency Fund:

## Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Loomis Sayles Intermediate Duration Bond Fund (one of the funds constituting Loomis Sayles Funds I), and Loomis Sayles High Income Fund and Loomis Sayles Limited Term Government and Agency Fund (two of the funds constituting Loomis Sayles Funds II) (hereafter collectively referred to as the “Funds”) as of September 30, 2018, the related statements of operations for the year ended September 30, 2018, the statements of changes in net assets for each of the two years in the period ended September 30, 2018, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of September 30, 2018, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended September 30, 2018 and each of the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

## Basis for Opinions

These financial statements are the responsibility of the Funds’ management. Our responsibility is to express an opinion on the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of

# Report of Independent Registered Public Accounting Firm

September 30, 2018 by correspondence with the custodian, and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

PricewaterhouseCoopers LLP  
Boston, Massachusetts  
November 20, 2018

We have served as the auditor of one or more investment companies in the Natixis Investment Company Complex since at least 1995. We have not determined the specific year we began serving as auditor.

# 2018 U.S. Tax Distribution Information to Shareholders (Unaudited)

**Corporate Dividends Received Deduction.** For the fiscal year ended September 30, 2018, a percentage of dividends distributed by the Funds listed below qualify for the dividends received deduction for corporate shareholders. These percentages are as follows:

<u>Fund</u>	<u>Qualifying Percentage</u>
High Income	1.67%

**Qualified Dividend Income.** For the fiscal year ended September 30, 2018, the Funds below will designate up to the maximum amount allowable pursuant to the Internal Revenue Code as qualified dividend income eligible for reduced tax rates. These lower rates range from 0% to 20% depending on an individual's tax bracket. If the Funds pay a distribution during calendar year 2018, complete information will be reported in conjunction with Form 1099-DIV.

<u>Fund</u>
High Income

# Trustee and Officer Information

The tables below provide certain information regarding the trustees and officers of Loomis Sayles Funds I and Loomis Sayles Funds II (the “Trusts”). Unless otherwise indicated, the address of all persons below is 888 Boylston Street, Suite 800, Boston, MA 02199-8197. The Funds’ Statements of Additional Information include additional information about the trustees of the Trusts and are available by calling Natixis Funds at 800-225-5478.
