## Undergraduate Summer Internship Development Program (USID)

June 7- August 13, 2023

The Undergraduate Summer Intern Development (USID) Program is unique in seeking a competitive, yet diverse range of students who are under-represented in the investment industry. The USID program is offered to first-generation college students interested in growing all of their professional capacities. Our goal is to offer exposure and access to students who may not have considered investment management as a career.

Students gain hands-on work experience on a team, and also participate in a series of regular workshops. The internship aims to strengthen each intern's personal, professional and technical capabilities in preparation for the workforce.
