## FUND (I CLASS) AS OF 1/31/2026 (%)

### Trailing Returns

Sources: Loomis Sayles and Bloomberg.

Total return assumes reinvestment of dividends and capital gains distributions. Performance data reflects certain fee waivers and reimbursements. Without such waivers, performance would be lower. I Class Shares are only available to certain institutional clients. Minimum initial investment: \$100,000. Indices are unmanaged and do not incur fees. It is not possible to invest directly in an index. Returns may increase or decrease as a result of currency fluctuations.

Gross expense ratio 0.61% (Class I). Net expense ratio 0.40%. As of the most recent prospectus, the investment advisor has contractually agreed to waive fees and/or reimburse expenses once the expense cap of the fund has been exceeded. This arrangement is set to expire on 1/31/2027. When an expense cap has not been exceeded, the fund may have similar ratios and/or yields.

Bloomberg U.S. Treasury Inflation Protected Securities Index is an unmanaged index that tracks inflation protected securities issued by the U.S. Treasury. On March 1, 1997, Bloomberg launched the Bloomberg U.S. Treasury Inflation Protected Securities (TIPS) Index (Series-L), a rules-based, market value-weighted index that tracks inflation-protected securities issued by the U.S. Treasury.

**Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance data quoted represents past performance and current returns may be higher or lower. For additional information please visit [www.loomissayles.com](http://www.loomissayles.com).**

# performance attribution

FUND - 12/31/2025 THROUGH 1/31/2026 (%)

Source: Loomis Sayles performance attribution system.

The Attribution benchmark is Bloomberg U.S. TIPS Index. Figures on bar charts may not add up to total excess return as they exclude impact of trading and pricing differences. Excess Return by sector includes yield curve impact.

Security Selection effect is the relative return over benchmark due to security selection. Sector Allocation effect is the relative return over benchmark due to sector allocation. Yield Curve effect is the relative return over benchmark due to yield curve positioning. Parallel Shift effect is the relative return over benchmark due to yield curve positioning, assuming a parallel shift in yield curve around a chosen pivot point. Non-parallel Shift effect is the yield curve effect minus parallel shift effect (i.e. the part of the yield curve effect not explained by parallel shift).

Performance attribution is calculated using Loomis Sayles internal data. Attribution excludes the deduction of fund fees and expenses and may reflect pricing variations. As such, performance attribution calculations may differ from the fund's actual investment results. Holdings, sector allocations and other portfolio characteristics are subject to change.

Past performance is no guarantee of future results.

# performance attribution

FUND - 9/30/2025 THROUGH 12/31/2025 (%)

# characteristics

## FUND SECTOR DISTRIBUTION AS OF 1/31/2026 (%)

LS INFLATION PROTECTED SECURITIES FUND

BLOOMBERG U.S. TIPS INDEX

Source: Loomis Sayles and Bloomberg.

Due to active management, characteristics will evolve over time. Sector values are rounded to the nearest percent, and those with a value of less than 0.5% do not appear in the chart. Due to rounding, pie chart totals may not equal 100%.

Please see Additional Notes at the end of this presentation for further information, including risks, on the LS Inflation Protected Securities Fund.

# appendix

## Additional Notes

**Principal Risks:** **Fixed income bonds** may carry one or more of the following risks: credit, interest rate (as interest rates rise bond prices usually fall), inflation and liquidity. **Below investment-grade fixed income securities** may be subject to greater risks (including the risk of default) than other fixed-income securities. **Mortgage-related and asset-backed securities** are subject to the risks of the mortgages and assets underlying the securities. Other related risks include prepayment risk, which is the risk that the securities may be prepaid, potentially resulting in the reinvestment of the prepaid amounts into securities with lower yields. **Inflation protected securities** move with the rate of inflation and carry the risk that in deflationary conditions (when inflation is negative) the value of the bond may decrease. **US government agency securities** are not insured and may not be guaranteed by the US government. **Derivatives** involve risk of loss and may additional risks. Because derivatives depend on the performance of an underlying asset, they can be highly volatile and are subject to market and credit risks. **Foreign and emerging market securities** may be subject to greater political, economic, environmental, credit, currency and information risks. Foreign securities may be subject to higher volatility than U.S. securities, due to varying degrees of regulation and limited liquidity. Foreign securities may involve heightened risk due to currency fluctuations. These risks are magnified in emerging markets. **Foreign securities** may involve heightened risk due to currency fluctuations. Additionally, they may be subject to greater political, economic, environmental, credit and information risks. Foreign securities may be subject to higher volatility than U.S. securities, due to varying degrees of regulation and limited liquidity. **Currency** exchange rates between the U.S. dollar and foreign currencies may cause the value of the fund's investments to decline. **Commodity-related** investments, including derivatives, may be affected by a number of factors including commodity prices, world events, import controls and economic conditions, and therefore may involve substantial risk of loss. **Equity securities** are volatile and can decline significantly in response to broad market and economic conditions.

**Before investing, consider the fund's investment objectives, risks, charges, and expenses. Please visit [loomissayles.com](http://loomissayles.com) or call us at 800-225-5478 for a prospectus or a summary prospectus, containing this and other information. Read it carefully.**
