

Short Duration Stable Value Fixed

Management Team

Portfolio Manager

Christopher T. Harms
Cliff V. Rowe, CFA
Daniel T. Conklin, CFA

Objective

Seeks to outperform the Bloomberg US Government/Credit 1-3 Year Index while maintaining a benchmark-aware risk return objective

Highlights

- Stable value portfolios can be customized based on a provider's restrictions, enabling us to adhere to a mandate's specific guidelines while providing the same philosophy and process as our Short Duration Fixed Income strategy
- Individual investment ideas are evaluated on the basis of their investment return potential and contribution to portfolio risk
- Top-down macroeconomic analysis combined with bottom-up security selection drives portfolio construction
- Securities rated below investment grade are limited to 10% of the portfolio, depending on client guidelines
- Duration bands: +/- 0.5 year (typically within +/- 0.25 year) relative to the index
- Typical portfolio: approximately 100 to 150 issuers, 150 to 225 issues
- All investments must be US dollar denominated
- Issuer maximum is 3% or the benchmark weight plus 2% (whichever is greater at the time of purchase), Treasuries and GSEs excluded
- Industry maximum of 25% of the benchmark weight plus 10%, (whichever is greater at the time of purchase)
- Investment universe typically includes US Treasuries, agencies, asset-backed securities (ABS), commercial mortgage-backed securities (CMBS), investment grade corporate bonds, mortgage-backed securities (MBS), Yankee bonds (including emerging markets) and high yield corporate bonds

Benchmark

Bloomberg US Government/Credit 1-3 Year Index

Facts		Portfolio Characteristics [^]		Composite	Index

^{*}Since Composite Inception 6/1/2018

Performance data shown represents past performance and is no guarantee of future results. Current performance may be lower or higher than quoted. Returns for one and multi-year periods are annualized. Gross returns are net of trading costs. Net returns are gross returns less effective management fees. Returns may increase or decrease as a result of currency fluctuations.

Indices are unmanaged and do not incur fees. It is not possible to invest directly in an index.

There is no guarantee that the investment objective will be realized or that the strategy will generate positive or excess return.

Average Yield is Yield to Effective Maturity. Duration and Maturity for equity securities are deemed to be zero.

KEY RISKS

Credit Risk, Issuer Risk, Interest Rate Risk, Liquidity Risk, Prepayment Risk and Extension Risk. Investing involves risk including possible loss of principal.

Due to rounding, Sector, Currency, Country, Credit Quality, Duration and Maturity distribution totals may not equal 100%. This portfolio is actively managed and characteristics are subject to change. Credit Quality reflects the highest credit rating assigned to individual holdings of the composite among Moody's, S&P or Fitch; ratings are subject to change. Cash & Equivalents may include unsettled trades, fees and/or derivatives.

The Composite includes all discretionary accounts with market values greater than \$5 million managed by Loomis Sayles with stable value guidelines and invests primarily in investment grade fixed income securities of all major fixed income sectors such as corporates, governments, and mortgages with short term maturities. The Composite inception date is June 1, 2018. The Composite was created in October 2022.
